

# MATTER STUDY GUIDE

Everything on earth is made of matter.

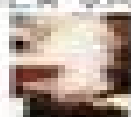

**Matter is everywhere!**

There are 3 states of matter.

Students need to be able to name the three states and give an example of each!

| Solid                                                                                                 | Liquid                                                                                                 | Gas                                                                                                     |
|-------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| A solid has its own shape.                                                                            | Liquids do not have a shape. They take the shape of their container.                                   | Gases have no shape. They fill the container they are in.                                               |

Properties describe matter, how it looks and feels.

Properties can be color, shape, size and texture.

Students should understand matter can change by:

|                                                                                                |                                                                                                   |                                                                                                  |                                                                                                    |
