

MATTRESS BUYER'S GUIDE

QUESTIONS TO ASK YOURSELF BEFORE YOU START SHOPPING

1 Do I need a new mattress?

On average, most mattresses need to be replaced every **8 YEARS**.

Consider who will be sleeping in the bed and plan to make room! Long legs tend to expand at night...

Do you have pets or kids?

2 What size do I need?

Great for **TALL** people!

3 What type should I buy?

4 Hybrid mattresses are gaining popularity as a combination of latex, foams, coils and other materials.

1 Innerspring is the most common type of mattress, consisting of spring coils.

2 Latex Foam mattresses are known for their comfort and cooling.

3 Memory Foam mattresses are known for support and pressure relief.

4 Where can I buy?

Online

- see multiple brands at once
- can't try before you buy

Department Store

- salesmen can provide info quickly
- highest prices

Factory Direct

- cuts out the middle man
- limited selection

5 What factors do I consider?

- 1 Support**
Check your mattress that keeps your spine in alignment so you don't wake up too tired!
- 2 Comfort**
Make sure the mattress doesn't trigger any pressure points when you lie down on it.
- 3 Edge Support**
Look for a mattress with strong edges to prevent sagging or rolling off the bed at night!
- 4 Durability**
The typical mattress lifespan is 8 years - anything less in a new mattress should cause some flags.
- 5 Motion Transfer**
If your bed sleeps two, try out the mattress with your partner to see how much you will feel them move at night.

When trying out a new mattress, give your body time to relax! 10 minutes laying down should do the trick!

10 MINUTE TEST

6 What about how I sleep?

Stomach sleepers put their spine and back in a less-than-ideal position. Look for a slightly firmer mattress to maintain support!

For back sleepers, look for a mattress that supports your lower back. The nature of sleeping on your back means added stress to that area.

7 How much should I pay?

Bargain Prices

Mattresses priced less than \$500 commonly use inferior materials, have less coil count, or are otherwise cutting corners. Just don't do it.

Cheap Foam Mattresses

These mattresses are less durable, have higher levels of off-gassing, and may use more toxic chemicals.

Traditional Brick & Mortar Stores

These mattresses are the most expensive of them all. You may get a quality mattress, but you're going to really have to pay for it.

Buying Online
\$600-\$1200

Buying factory direct from companies online saves you money and you'll end up with more mattress for your money!

8 Do I need a box spring?

MYTH: All mattresses require a box spring.
FACT: In many cases, **wood slats** will do the same thing. This works great for platform beds. Check your mattress warranty to know for sure!
