

SECTION A: COMPREHENSION

QUESTION 1 – 30 marks

Read both Text A and Text B and answer the set questions.

TEXT A

- Questions that the 'World Cup-winning Springboks' captain Siya Kolisi answered – some pretty unexpectedly – in his inspirational autobiography, *Rise*.
- South African rugby player Siya Kolisi proves to be an inspiration on and off the pitch. He's the first Black man to lead his country's rugby team in more than 120 years. From humble beginnings to international stardom, Kolisi's life shows the power of achieving a positive mindset.
- Here are questions we got answered from Kolisi's autobiography, *Rise*:
 - Who was the person that set him on the path to glory?**
 - Kolisi makes no bones about it. "Without her, I wouldn't be here. That's not a figure of speech," Kolisi explains, talking about his grandmother Nkulamile, who brought him up in the township of Zwelinde in the Eastern Cape city of Port Elizabeth. A remarkable woman, she was the 'positive, loving, supportive and protective' influence in the toughest of times. She would even go without food herself to ensure Kolisi had enough to stave off his terrible hunger. She sadly died in his arms but will always be in his heart.
 - What was his first sporting triumph?**
 - Kolisi began playing street soccer as a kid and loved playing goalie, chucking himself about on the hard, compacted earth of a makeshift dirt pitch, guarding goalposts made of bricks. He and his team-mates would share a grand prize of five rands (that's about 25 pence or 30 cents between them) when they won a 'tournament' against kids from another street in the township. They would then buy piles of vetkoeks – pieces of dough filled with sausage and cheese – as their real prize. As often as not, though, he recalled, it wouldn't end with a trophy, but a beating for breaking a window.
 - What first attracted him to rugby?**
 - A dazzling try? A thumping tackle? No, what first wooed this wide-eyed four-year-old kid was watching the colossal Jonah Lomu and his New Zealand All Blacks performing their famed and ferocious pre-match challenge, the Haka, at the 2003 World Cup. "To me, it was just another cool dance with lots of chanting, thigh-slapping and eye-rolling, and I'd practice it with my friends in the day and perform it for my dad when he came home from work every evening," reckoned Kolisi.

10. What was the moment that changed his life?

11. Kolisi recalled how his life could so easily have turned a different, more treacherous corner as he got increasingly involved in drug-taking and petrol sniffing with other boys in the township. "I could have ended up a tsoi and from there, you only have two real options: jail or death. Or both," he reflected. Yet a training session for a local rugby team called the African Bombers, overseen by a shouting, terrifying, but inspirational coach called Eric Songqidi, proved an epiphany. "I finished that session exhausted, bruised and bleeding, but I walked home on cloud nine. It was the most awesome thing I'd ever done. From that first session, I never looked back, and I never smoked weed or sniffed petrol again," Kolisi remembered.

12. Who was his first hero?

13. After Kolisi received a life-changing bursary to attend Grey High School in Port Elizabeth, he watched the mighty Springboks come to train there, headed by Schalk Burger. "He was my hero, not just because I was a back row like him, but because I love the way he played. He was everywhere, dirty blond hair flying as he threw himself into tackles, cleared out rucks and ran the hard yards in the tight channels," he remembered. He was too shy initially even to ask Burger for his autograph, but a teacher shoved a pen and a piece of paper in his hand, telling him not to return until he'd got the signature that, to this day, remains one of his prized possessions. "If you'd told me then that one day Schalk would be not just my team-mate but also my friend, I'd have thought you'd lost your mind," reckoned Kolisi.

Trade and Commerce Malcolm Lavoie, 2023-02-15 In recent decades the economic framework of Canada's Constitution has been a subject largely neglected by judges scholars and commentators Trade and Commerce fills this gap by bringing to light a lost understanding of how the Constitution structures economic relations As Malcolm Lavoie reveals the Constitution includes foundational commitments to property rights local government autonomy and the principle of subsidiarity At the same time it creates a platform for integrated national markets with secure channels for interprovincial trade This economic vision remains a vital part of Canada's constitutional order and is relevant to a purposive interpretation of the Constitution But contemporary legal discourse has begun to lose touch with this vision with regrettable consequences in a number of different policy areas Exploring the implications of the economic Constitution in the context of contemporary issues including disputes over

interprovincial trade and jurisdictional tensions between federal provincial and Indigenous governments with respect to the environment and the economy Trade and Commerce restores economic ideas to the forefront of constitutional thinking in Canada

Current Research and Emerging Directions in Emotion-Cognition Interactions Florin Dolcos, Lihong Wang, Mara Mather, 2015-03-02 Emotion can impact various aspects of our cognition and behavior by enhancing or impairing them e g enhanced attention to and memory for emotional events or increased distraction produced by goal irrelevant emotional information On the other hand emotion processing is also susceptible to cognitive influences typically exerted in the form of cognitive control of motion or emotion regulation Despite important recent progress in understanding emotion cognition interactions a number of aspects remain unclear The present book comprises a collection of manuscripts discussing emerging evidence regarding the mechanisms underlying emotion cognition interactions in healthy functioning and alterations associated with clinical conditions in which such interactions are dysfunctional Initiated with a more restricted focus targeting 1 identification and in depth analysis of the circumstances in which emotion enhances or impairs cognition and 2 identification of the role of individual differences in these effects our book has emerged into a comprehensive collection of outstanding contributions investigating emotion cognition interactions based on approaches spanning from behavioral and lesion to pharmacological and brain imaging and including empirical theoretical and review papers alike Co hosted by the Frontiers in Neuroscience Integrative Neuroscience and Frontiers in Psychology Emotion Science the contributions comprising our book and the associated research topic are grouped around the following seven main themes distributed across the two hosting journals I Emotion and Selectivity in Attention and Memory II The Impact of Emotional Distraction Linking Enhancing and Impairing Effects of Emotion III What Really is the Role of the Amygdala IV Age Differences in Emotion Processing The Role of Emotional Valence V Affective Face Processing Social Cognition and Personality Neuroscience VI Stress Mood Emotion and the Prefrontal Cortex The Role of Control in the Stress Response VII Emotion Cognition Interactions in Clinical Conditions As illustrated by the present collection of contributions emotion cognition interactions can be identified at different levels of processing from perception and attention to long term memory decision making processes and social cognition and behavior Notably these effects are subject to individual differences that

may affect the way we perceive experience and remember emotional experiences or cope with emotionally challenging situations Moreover these opposing effects tend to co occur in affective disorders such as depression and PTSD where uncontrolled recollection of and rumination on distressing memories also lead to impaired cognition due to emotional distraction Understanding the nature and neural mechanisms of these effects is critical as their exacerbation and co occurrence in clinical conditions lead to devastating effects and debilitation Hence bringing together such diverse contributions has allowed not only an integrative understanding of the current extant evidence but also identification of emerging directions and concrete venues for future investigations
