New Narratives Ruth Page, Bronwen Thomas, 2011-12-01 Just as the explosive growth of digital media has led to ever expanding narrative possibilities and practices so these new electronic modes of storytelling have in their own turn demanded a rapid and radical rethinking of narrative theory This timely volume takes up the challenge deeply and broadly considering the relationship between digital technology and narrative theory in the face of the changing landscape of computer mediated communication New Narratives reflects the diversity of its subject by bringing together some of the foremost practitioners and theorists of digital narratives It extends the range of digital subgenres examined by narrative theorists to include forms that have become increasingly prominent new examples of experimental hypertext and contemporary video games The collection also explicitly draws connections between the development of narrative theory technological innovation and the use of narratives in particular social and cultural contexts Finally New Narratives focuses on how the tools provided by new technologies may be harnessed to provide new ways of both producing and theorizing narrative Truly interdisciplinary the book offers broad coverage of contemporary narrative theory including frameworks that draw from classical and postclassical narratology linguistics and media studies

The State of the Global Education Crisis UNESCO, United Nations Children's Fund, World Bank (the), 2021-12-09 The global disruption to education caused by the COVID 19 pandemic is without parallel and the effects on learning are severe The crisis brought education systems across the world to a halt with school closures affecting more than 1.6 billion learners While nearly every country in the world offered remote learning opportunities for students the quality and reach of such initiatives varied greatly and were at best partial substitutes for in person learning Now 21 months later schools remain closed for millions of children and youth and millions more are at risk of never returning to education Evidence of the detrimental impacts of school closures on children's learning offer a harrowing reality learning losses are substantial with the most marginalized children and youth often disproportionately affected Countries have an opportunity to accelerate learning recovery and make schools more efficient equitable and resilient by building on investments made and lessons learned during the crisis Now is the time to shift from crisis to recovery and beyond recovery to resilient and transformative education systems that truly deliver learning and well being for all children and youth The World Bank website

Pedagogic Practices, Student Engagement and Equity in Chinese as a Foreign Language Education Wen Xu, 2021-12-27 This book explores and analyses Chinese as a Foreign Language CFL pedagogic practices and learning experiences within a cohort of low socio economic status students within an Australian primary classroom It demonstrates that in spite of policy and educational discourses underpinning Asian literacies Chinese teaching and learning is a fragile undertaking in Australian schooling The politicisation of CFL education especially in the post COVID 19 era has exacerbated public stereotypes concerning racism and multiculturalism in Australia today Drawing upon Bernstein's theorisation and engagement framework Wen Xu sketches out CFL education as a democratic

space where power and control relations can be deliberately operated to reinforce engaging learning experiences She suggests that pedagogic interventions in the name of social justice have the potential to make consequential differences in disadvantaged students life trajectories and CFL education can be envisioned as an avenue towards socioeconomic mobility instead of being criticised as a platform opposing to liberal ideas In turn she provides insights into teaching younger age CFL learners in the global context in terms of the structuring of pedagogy and curriculum Wen Xu s research will be of interest to students and scholars in sociology of education student engagement pedagogy and curriculum CFL education and languages education as well as pre service teachers and practitioners who teach Chinese as a Foreign Language

International Handbook of Mathematical Learning Difficulties Annemarie Fritz,Vitor Geraldi Haase,Pekka Räsänen,2019-01-30 This comprehensive volume provides teachers researchers and education professionals with cutting edge knowledge developed in the last decades by the educational behavioural and neurosciences integrating cognitive developmental and socioeconomic approaches to deal with the problems children face in learning mathematics The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades but the most part of this research has been conducted in non applied settings and there s still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings Now it s time to bring the results from the laboratory to the classroom Apart from bringing the theoretical discussions to educational settings the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues And it does so from an international perspective dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world All of this makes the International Handbook of Mathematical Learning Difficulties an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society
