Veterans with Disabilities Arie Rimmerman,2020-10-15 The number of older war veterans receiving disability benefits is steadily growing and is predicted to rise in the next decade This book provides comprehensive knowledge about health and psychosocial concerns of veterans aging with disabilities and unmet needs and compares policy in three countries that have been involved in massive warfare in the 20th century the United Kingdom UK the United States US and Israel Using a cross national comparative study of the policies legislation and services provided by these three countries which have significant numbers of aging disabled military veterans this book provides evidence based knowledge on the trajectories and attendant mental health and psychosocial problems this sub group faces when aging with a disability It sheds light on the paradox in which most veterans with disabilities in the UK USA and Israel are older while the current legislation and budget target younger veterans with disabilities The book reflects the current debate regarding the desired policy toward older veterans with disabilities in these countries and whether to provide them with proactive health services prior to retirement to prevent accelerated aging It also evaluates the dilemma of whether to serve aging veterans separately as a unique population or to provide them with the same services used by the general population This book will be of interest to all academics and students working in disability studies rehabilitation studies gerontology psychology sociology social work social policy and law more broadly **Age Related Pension Expenditure and Fiscal Space** Mukul G. Asher,Fauziah Zen,2016-02-22 This book explores the linkages between age related pension expenditures and the fiscal space needed to fund them as well as to organize the mix of financing methods with different risk sharing arrangements After critically assessing the existing models projecting age related expenditure in the literature the book focuses on the case studies of these inter linkages in four highly populated East Asian countries namely China Indonesia India and Japan Nearly two fifths of the global population live in these countries Therefore how these inter linkages manifest themselves and the initiatives in these countries for finding fiscal space will have an impact on how the ageing issues are addressed globally This book does several distinguishing characteristics including exploration of inter linkages between age related expenditure and fiscal space and application of country specific methods to explore these linkages rather than relying standard macroeconomic model In the process the studies also bring out the limitations of standardized model used in the literatures Scholars and policy makers interested in the subject will definitely find the book of valuable use *The Retreat from Strategy* David Richards,Julian

Lindley-French,2024-09-12 Britain is sleepwalking to disaster because London has abandoned all forms of proper strategy That is the sobering message of this powerful analysis exposing the great failings of British security and defence policy Britain long ago abandoned the art and science of grand strategy even though this is crucial for establishing the country s direction of travel Without grand strategy national strategy has been reduced to little more than a political game of how much threat Britain can afford and who gets what from an ever shrinking resource pot However it is Britain s defence policy where the contradictions and self delusion of abandoned strategy are most apparent and which explains why the balance between ends ways and means as sound strategy would demand has become not just elusive but nigh on impossible This essential incisive book offers Britain a pathway back to strategic realism by ending the profound confusion of interests with values that has done so much damage to Britain and its vital place in the world of the twenty first century **Research Handbook on the Arms Trade** Andrew T.H. Tan,2020-12-25 This comprehensive Research Handbook examines the key drivers of the arms trade mapping the main trends in Asia Europe the Middle East Africa and Latin America It also explores the principal defence markets internationally including the US China India Russia and the UK in greater detail **Armed Forces' Pay Review Body forty-first report 2012** Armed Forces' Pay Review Body,2012-03-13 This is the 41st Report by the Armed Forces Pay Review Body and provides independent advice to the Prime Minister and the Secretary of State for Defence on remuneration and charges for members of the naval military and air forces of the Crown As last year the Secretary of State for Defence directed the Review Body to confine recommendations on an overall pay uplift to those earning 21 000 or less because of the two year pay freeze imposed across the public sector The main recommendation is for an increase of 250 in military salaries for those earning 21 000 or less A number of other recommendations are made on targeted pay measures and accommodation and food charges *HC 527 - The Armed Forces Covenant in Action Part 5: Military Casualties* Great Britain. Parliament. House of Commons. Defence Committee,2014 Although Armed Forces personnel have a lower rate of criminal offending than the general population the rate for violent incidents is substantially higher particularly amongst those who have previously been deployed in combat roles and those who misuse alcohol The MoD needs to understand better the links between deployment alcohol misuse and violent behaviour especially domestic violence In particular there has been no research as to the incidence of domestic violence amongst Armed Forces personnel The Committee also found a shocking backlog in the processing of claims for War Pensions and for the Armed Forces Compensation Scheme The Committee is concerned that the demand for support from the Defence Recovery Capability already exceeds supply Veterans need more support navigating the overlapping bureaucracy of the health system Despite assurances from the MoD and the Department of Health the Committee is concerned that as operations in Afghanistan and Iraq fade from the public s mind and personnel move on to other lives the necessary long term support for those injured physically and psychologically will not be maintained The MoD in conjunction with the Health Service has introduced some

measures to support veterans with mental health problems and amputees but other conditions also require this focus The MoD should monitor the results of its work and report the outcomes in its annual report on the Armed Forces Covenant

Global Monitoring Report 2015/2016 World Bank;International Monetary Fund,2015-11-02 The Global Monitoring Report 2015 2016 produced by the World Bank Group in partnership with the International Monetary Fund comes at an inflection point in both the setting of global development goals and the demographic trends affecting those goals This year marks the end of the Millennium Development Goals MDGs and the launching of the Sustainable Development Goals SDGs while the World Bank Group has in parallel articulated the twin goals of sustainably ending extreme poverty and sharing prosperity This report presents the latest global poverty numbers based on the 2011 purchasing power parity PPP data and examines the pace of development progress through the lens of the evolving global development goals The special theme of this year s report examines the complex interaction between demographic change and development With the number of children approaching a global ceiling of two billion the world s population is growing slower It is also aging faster with the share of people of working age starting a decline in 2013 But the direction and pace of these trends vary starkly across countries with sizeable demographic disparities between centers of global poverty marked by high fertility and drivers of global growth marked by rapid aging These demographic disparities are expected to deeply affect the pursuit of the post 2015 agenda accentuating existing challenges and creating new opportunities
