Viesturs, David Roberts, 2006-10-17 NATIONAL BESTSELLER This gripping and triumphant memoir from the author of The Mountain follows a living legend of extreme mountaineering as he makes his assault on history one 8 000 meter summit at a time From the drama of the peaks to the struggle of making a living as a professional climber to the basic how tos of life at 26 000 feet No Shortcuts to the Top is fascinating reading Aron Ralston author of Between a Rock and a Hard Place and subject of the film 127 Hours For eighteen years Ed Viesturs pursued climbing s holy grail to stand atop the world s fourteen 8 000 meter peaks without the aid of bottled oxygen But No Shortcuts to the Top is as much about the man who would become the first American to achieve that goal as it is about his stunning quest As Viesturs recounts the stories of his most harrowing climbs he reveals a man torn between the flat safe world he and his loved ones share and the majestic and deadly places where only he can go A preternaturally cautious climber who once turned back 300 feet from the top of Everest but who would not shrink from a peak Annapurna known to claim the life of one climber for every two who reached its summit Viesturs lives by an unyielding motto Reaching the summit is optional Getting down is mandatory It is with this philosophy that he vividly describes fatal errors in judgment made by his fellow climbers as well as a few of his own close calls and gallant rescues And for the first time he details his own pivotal and heroic role in the 1996 Everest disaster made famous in Jon Krakauer s Into Thin Air In addition to the raw excitement of Viesturs s odyssey No Shortcuts to the Top is leavened with many funny moments revealing the camaraderie between climbers It is more than the first full account of one of the staggering accomplishments of our time it is a portrait of a brave and devoted family man and his beliefs that shaped this most perilous and magnificent pursuit Resource Utilization and Development Shri Kamal Sharma, 1992 The relationship

between resources and development is the pivot around which the present study revolves Focussing on the process of resource creation and utilization it emphasizes the need of equitable development integrating local needs resources people

and functions The resource exploitation and their utilization are two independent economic activities influenced by different algorithms and usually have manifested in core periphery relationship Reviews the persistent problems of economic development in perspective of exploitation of natural resources with the objective to provide some clues for occurrence and persistence of regional disparities and for suggesting a development model synchronising both the resource management and environmental protection Mountaineering, Denali National Park and Preserve, Alaska United States.
