

REPORT WRITING

A report is a structured written presentation directed to interested readers in response to some specific purpose, aim or request.

Characteristics of an effective report

A report is a structured written presentation directed to interested readers in response to some specific purpose, aim or request. There are many varieties of reports, but generally their function is to give an account of something, to answer a question, or to offer a solution to a problem.

An effective report is:

- Appropriate to its purpose and audience
- Accurate
- Logical
- Clear and concise
- Well organised with clear section headings.

Report structure

One important advantage that a report has over other written communication is that it follows a standardised format. This enables readers to find and focus on specific parts of information. Most reports are modelled on the following structure (modified where necessary).

1. Transmittal document
2. Title page
3. Table of contents
4. Abstract/Executive Summary
5. Introduction
6. Discussion
7. Conclusions
8. Recommendations
9. Bibliography.

Report writing procedure stage 1: Planning

Define the purpose:

- Read the brief carefully
- Identify key words
- Make sure you know what's really being asked

Writing a Report John Bowden, 2011 What is special about the text is that it is more than just how to write reports it gives that extra really powerful information that can and often does make a difference This book is comprehensive in its detail and contents covering type style fonts writing style and even advice on binding and illustrations *The NAEP 1994 Technical Report* Nancy L. Allen, 1997 Business Communication (For University of Delhi, B.Com Hons., Sem.6) Pooja Khanna, Effective communication is the key to success in life We live in an era where words and gestures play an important role in effective communication Businesses operate in various circumstances and it is paramount that the communication between different parties concerned is clear and effective and also takes into account the cultural sensitivities This is where the concept of Business Communication comes to play This book written in accordance with the syllabus of the University of Delhi is an attempt to equip the readers with skills required to communicate effectively in a business situation It would also be useful for the students of BCom BBA and MBA of other universities and for anyone looking to learn the nitty gritty of business communication KEY FEATURES Analysis of vital components of business communication Informative use of illustrations examples diagrams and pictures Inclusion of review questions and university examination questions New tools for business communication like emails teleconferencing video conferencing telex fax discussed in detail **How to Design and Report Experiments** Andy Field, Graham Hole, 2002-12-20 How to Design and Report Experiments is the perfect textbook and guide to the often bewildering world of experimental design and statistics It provides a complete map of the entire process beginning with how to get ideas about research how to refine your research question and the actual design of the experiment leading on to statistical procedure and assistance with writing up of results While many books look at the fundamentals of doing successful experiments and include good coverage of statistical techniques this book very importantly considers the process in chronological order with specific attention given to effective design in the context of likely methods needed and expected results Without full assessment of these aspects the experience and results may not end up being as positive as one might have hoped Ample coverage is then also provided of statistical data analysis a hazardous journey in itself and the reporting of findings with numerous examples and helpful tips of common downfalls throughout Combining light humour empathy with solid practical guidance to ensure a positive experience overall How to Design and Report

Experiments will be essential reading for students in psychology and those in cognate disciplines with an experimental focus or content in research methods courses **How to Do Systems Analysis** John E. Gibson, William T. Scherer, William F. Gibson, 2007-05-18 This book focuses on systems analysis broadly defined to also include problem formulation and interpretation of proposed alternatives in terms of the value systems of stakeholders Therefore the book is a complement not a substitute to other books when teaching systems engineering and systems analysis The nature of problem solving discussed in this book is appropriate to a wide range of systems analyses Thus the book can be used as a stand alone book for teaching the analysis of systems Also unique is the inclusion of broad case studies to stress problem solving issues making How to Do Systems Analysis a complement to the many fine works in systems engineering available today *The NAEP ...
