Whether you've mastered the basics of Final Cut Pro and want to take your skills to the next level or if you're a video editor new to Final Cut Pro and looking to put your own system together this book is for you. Written by Chawla, a Final Cut Pro guru and veteran moderator on 2 Pop Creative Cow, this book covers the interface basics and workflow but goes beyond to address intermediate techniques and timesaving tips for professional results. Roberts does not assume you have an IT staff on hand and therefore goes into crucial issues of set up configuration, consumer advice on hardware purchasing and troubleshooting. Equally valuable is coverage of working with formats such as standard definition uncompressed and FireWire DV. Final Cut Pro 2 for FireWire DV Editing Charles Roberts,2012-11-12. Final Cut Pro 2 for FireWire DV Editing: the how and why of independent digital video editing. This guide is a comprehensive introduction to Apple Computer's Final Cut Pro editing system and the digital video format in general. It provides relevant information about the format's specifications, proper configuration of the basic editing system, and professional tips, all in clear, jargon-free terms. Final Cut Pro 2 for FireWire DV Editing's workbook approach explains how to set up your desktop studio, edit your digital video, and complete and distribute your project. It provides the information and the encouragement every digital video editor needs to complete projects of exceptional quality, from setup and capture to editing, effects work, and output to tape and the web. Roberts' guide is the only Final Cut Pro handbook that provides a detailed step-by-step format that follows the course of your project as it progresses, defining the drop-down menus and keyboard shortcuts as you'll need them and answering questions as they arise. Additionally, Final Cut Pro 2 for FireWire DV Editing explains in detail the Apple Macintosh hardware, software, and FireWire DV equipment set up and specifications so that you'll know what tools you may need and what you likely won't, so that you can most efficiently execute your project. **Self Instructional Manual for Cancer Registrars** ,1999 *Federal Motor Vehicle Safety Standards and Regulations, with Amendments and Interpretations* United States.
