Consistent colour images that last

- **Fade-resistant¹, photo-quality images every time.** Proprietary dye-based HP Vivera inks are engineered to work flawlessly with all parts of the printing systems so you achieve rich, vibrant colour and high-resolution 2400dpi photo image quality with exceptional fade-resistance¹.
- **Rich colour depth and minimal dot visibility.** The six-colour HP writing system delivers a wide gamut of colours, deeper blacks and superior gloss uniformity. A four picoliter ink drop size maintains fine detail reproductions and smooth tonal transitions.

Reliable colour reproduction

- **Consistent colours from print to print.** The HP Designjet 130 printer uses HP Professional Colour technologies, including Automatic Closed Loop Colour calibration, CMYK Plus² and HP Color Layering, to provide accurate consistency and smooth transitions.
- **Full colour workflow support.** Optimized Macintosh and Windows[®] drivers provide key features for creative professionals, including RGB ICC profiles and Apple ColourSync support. Optional Adobe[®] PostScript[®] software RIP enables colour management and CMYK proofing options, including automatic PANTONE Calibration³ and offset emulation⁴.
- **Professional results made simpler.** HP's free on-line knowledge center provides illustrated step-by-step instructions specific to applications and workflows. In addition, HP's custom colour profiling service provides high-quality ICC media profiles for professionals.

From Postcards to posters

- **Handles a variety of media for projects big and small.** The standard tray holds up to 70 sheets from postcards to poster sizes (457 x 610 mm/ 18 x 24 inches). Extra-wide paper paths allow oversized output up to 24 x 64 inches, while the standard roll feed supports printing up to 610 mm x 15 m (24 inches x 50 ft) and allow switching between loaded media options without intervention.
- **All ideas thick and thin.** The HP Designjet 130 Printer series can handle media weights up to 300 g/m² (80 lb), as well as thick or rigid media up to 0.4mm (0.02 inches). Choose from a variety of finishes, including HP Premium Plus Photo, Proofing Gloss and Photo Matte.

More time to design

- **Fast results without compromise.** Produce high-quality images at speeds of up to 4 minutes per page for A3-size and up to 12 min./page for an A1-size colour image in Normal mode on glossy media, with fast colour stability. This means that proofs and prints can be reviewed and approved in real time – ideal for pre-press.
- **More time creating.** In-house printing for oversized output eliminates delays and shortens project timelines. Reliable, modular HP ink cartridges and printheads require little attention—further enhancing cost-effectiveness and efficiency.

¹ Results from Wilhelm Imaging Research, Inc. indicate that prints made with HP No. 85 ink cartridges and HP Premium Plus Photo paper may be displayed indoors under glass for 82 years before noticeable fading and staining occur.

² With optional software RIP; not included, sold separately.
