Learning Finding True Magic and the Transpersonal Hypnotherapy NLP trainings are appropriate for laypeople seeking personal growth as well as for therapists and other professionals intent on advancing their therapeutic skills In fact about 50 per cent of ITL students take the training primarily for personal development This book explores the possibilities for recognizing and freeing ourselves from a destructive process of perceiving thinking and acting that can be viewed as a pernicious worldwide syndrome Unlike other ailments which we strive to isolate and cure this insidious fever has a characteristic that makes us blind to its presence we come to identify its symptoms as our own true self We lovingly speak of this disease as our ego our sense of limited separate selfhood Jack Elias calls it egoic minding because it is a process not a thing Egoic minding is a fragmented biased way of perceiving and thinking It can be viewed as a sort of destructive hypnotic trance that causes us to experience each other as strangers as different as threats The delirium of this trance causes us to do violence to each other and to our world without ever recognizing that it our egoic thought process is the true enemy By synthesizing insights and techniques of Eastern and Western philosophy and psychology Finding True Magic explores various ways to disperse the feverish trance of egoic minding heal the trauma it causes and wake us up to the sacred magic of our true Self This true inner Self is the wellspring of our capacity for cooperation community building and the celebration of life Everyone has the right to the make use of the essential insights of healing communication without resorting to the long term expense of a professional intermediary Therapy should change simply because there is a more effective approach to healing and personal growth That approach the subject of this book relies on each person s inherent goodness a resource that is surprisingly easy to contact in the space between egoic thoughts     *The User's Manual for the Brain Volume II* L Michael Hall,Bob G Bodenhamer,2002-03-26 This much anticipated volume continues the tradition of Volume I the Practitioner course manual The authors now invite you to reach beyond Practitioner to Master level to develop the very spirit of NLP the quintessential self study course on advanced NLP Judith E Pearson PhD     **Ad and Jo's Guide to Hypnosis and**
