Moore,2013-04-18 Using James Truslow Adams definition of the American dream this book investigates whether black African immigrants in Texas are achieving the American dream Almost all of the study participants Moore interviewed considered America a land of opportunity Additionally most of the black African immigrants definitions of the American dream focused on material aspects Although participants mostly reported that the United States had been good to them they nonetheless felt that they had not

yet achieved the American dream. Additionally, they reported that their lives in the United States had been at best incomplete. They also encountered other challenges which mainly reflected the moralistic aspect of the definition of the American dream. They reported experiences such as not being fully accepted by native born Americans in general and by white Americans in particular, being discriminated against and being unappreciated. In fact, all of these challenges created a sense of marginalization among study participants. However, aware of the benefits of migration, they were willing to endure these challenges.

American Dreaming Sarah J. Mahler, 2021-02-09. *American Dreaming* chronicles in rich detail the struggles of immigrants who have fled troubled homelands in search of a better life in the United States, only to be marginalized by the society that they hoped would embrace them. Sarah Mahler draws from her experiences living among undocumented Salvadoran and South American immigrants in a Long Island suburb of Manhattan. In moving interviews, they describe their disillusionment with life in the United States but blame themselves individually or as a whole for their lack of economic success and not the greater society. As she explores the reasons behind this outlook, the author argues that marginalization fosters antagonism within ethnic groups while undermining the ethnic solidarity emphasized by many scholars of immigration. Mahler's investigation leads to conditions that often bar immigrants from success and that they cannot control, such as residential segregation, job exploitation, language and legal barriers, prejudice, and outright hostility from their suburban neighbors. Some immigrants earn surplus income by using private cars as taxis, subletting space in apartments to lower rent burdens, and filling out legal forms and applications in essence generating institutions largely parallel to those of the mainstream society, whereby only a small group of entrepreneurs can profit. By exacting a price for what used to be acts of reciprocal good will in the homeland, these entrepreneurs leave people who had expected to be exploited by Americans feeling victimized by their own.

American Dreams Marco Rubio, 2015-01-13. In 1956, Marco Rubio's parents came to America as poor immigrants with grade school educations. They found a land of opportunity where anyone could work hard, play by the rules, and build a better future for themselves and their children. His family proved the reality of the American Dream, where the children of maids and bartenders could become doctors, lawyers, small business owners, and maybe even a U.S. senator. But now the American Dream is on life support. Years of government-centered tax and spend liberalism have failed to lift the poor or sustain the middle class. Millions of everyday Americans have been left behind by an economy that doesn't value their skills and a government that would rather give them a handout than a hand up. In this follow-up to his bestselling memoir *An American Son*, Senator Rubio offers a road map for restoring the land of opportunity. He explains why we now stand at a critical junction and why the next few years will determine the future for our children and grandchildren. He shares his plan for scaling back the nanny state, helping families save for college and retirement, and making it easier for small businesses to create millions of good jobs. Above all, he urges us to return to the values and can do

spirit that made our country exceptional in the first place      Preaching to Korean Immigrants Rebecca Seungyoun Jeong, 2022-09-14 In terms of practical theology's critical reflection on marginalized people's wounds in a wider society this book investigates the question How to proclaim the good news in response to first generation Korean immigrants contextual suffering in the United States To answer the question the book starts with investigating Korean immigrant hearers contextual predicaments in a new land to point out emerging practical theological issues in relation to the practice of preaching In this book the primary subjects are first generation Korean immigrants especially those who have relatively low socio economic status and struggle with the purpose of their lives as immigrants particularly those whose material dreams have been shattered In order to proclaim the good news this book proposes a more appropriate immigrant theology for in the practice of preaching by reclaiming the priorities of God's future in our lives and confirming God's active identification with Korean immigrant congregations in the depths of their predicament Such reconstructive work for immigrant theology arises in response to their existential hardships marginality ethnic discrimination and relative powerlessness in life While acknowledging both the possibilities and limits of the diverse forms of current Korean immigrant preaching the book then offers a strategic proposal for a new homiletic theory namely a psalmic theological homiletic This proposed homiletic is deeply rooted in the theology of the Psalms and their rhetorical movement This re-envisioned mode of eschatological and prophetic preaching in times of difficulty recovers ancient Israel's psalmic rhetorical tradition that aims toward faith Its theological rhetorical strategy intends to both transform hearers' habitus of living in faith and enhance their hope-filled life through communal anticipation of God's coming future on the margins Specifically this proposed homiletic critically adopts key features from psalms of lament and their typical fourfold theological rhetorical movement i.e. lament retelling a story confessional doxology and obedient vow as now core elements of a revised Korean immigrant preaching practice

**Prosperity Gospel Latinos and Their American Dream** Tony Tian-Ren Lin, 2020-07-21 In this immersive ethnography Tony Tian Ren Lin explores the reasons that Latin American immigrants across the United States are increasingly drawn to Prosperity Gospel Pentecostalism a strand of Protestantism gaining popularity around the world Lin contends that Latinos embrace Prosperity Gospel which teaches that believers may achieve both divine salvation and worldly success because it helps them account for the contradictions of their lives as immigrants Weaving together his informants' firsthand accounts of their religious experiences and everyday lives Lin offers poignant insight into how they see their faith transforming them both as individuals and as communities The theology fuses salvation with material goods so that as these immigrants pursue spiritual rewards they are also perhaps paradoxically striving for the American dream But after all Lin observes prosperity is the gospel of the American dream In this way while becoming better Prosperity Gospel Pentecostals they are also adopting traditional white American norms Yet this is not a story of smooth assimilation as most of these immigrants must deal with the immensity of the broader cultural and political resistance to their actually becoming Americans Rather Prosperity Gospel

Pentecostalism gives Latinos the logic and understanding of themselves as those who belong in this country yet remain perpetual outsiders
