Brad Johnson, David G. Smith, 2019-12-03 When it comes to mentoring women face more barriers than men Here s how men can help change that Increasingly new employees and junior members of any profession are encouraged sometimes stridently to find a mentor

Four decades of research reveals that the effects of mentorship can be profound and enduring strong mentoring relationships have the capacity to transform individuals and entire organizations But the mentoring landscape is unequal Evidence consistently shows that women face more barriers in securing mentorships than men and when they do find a mentor they may reap a narrow range of both professional and psychological benefits *Athena Rising* is a book for men about how to eliminate this problem by mentoring women deliberately and effectively Traditional notions of mentoring are modeled on male to male relationships yet women often report a desire for mentoring that addresses their interpersonal needs Women want mentors who not only understand this but truly honor it Coauthors W Brad Johnson and David G Smith present a straightforward no nonsense manual for men working in all types of institutions organizations and businesses to become excellent mentors to women because as women succeed lean in and assume leading roles in any organization or work context the culture will become more egalitarian effective and prone to retaining top talent *Damned If She Does, Damned If She Doesn't* Lynn Cronin, Howard Fine, 2010-09-09 This perceptive analysis exposes five paradoxes that put women in no win professional situations and concludes with a new model for business which the authors call a coed corporation *Creating Mentoring and Coaching Programs* Linda Kyle Stromei, 2023-05-26 Are Mentoring and Coaching Programs Effectively Employed in Your Organization Coaching and mentoring have become essential organizational tools for developing people HR managers T D specialists and performance technologists will find useful tools in the 12 case studies in this volume These studies portray different mentoring and coaching programs in a variety of organizations and many educational applications that can be used as models and guides *Business Woman* David Clutterbuck, Marion Devine, 1987-04-03 *Erotic Mentoring* Janice Hocker Rushing, 2016-06-16 They're everywhere in the academy young bright women mentored by older scholars usually men who attempt to mold them into their own masculine ideals Janice Hocker Rushing's study of over 200 women and their life transformations is the subject of this eloquent book Using the tropes of mythology and Jungian psychology the author characterizes the many paths these women's academic lives take as Muse for a faltering older scholar as Mistress or wife as the dutiful academic daughter Their resistance to this power differential also takes many forms as a Veiled Woman silent in public but active in private or the Siren using her sexuality to beat the system Ultimately Rushing arrives at the myth of Eros and Psyche where women's self understanding and personal development turns her erotic mentoring into an autonomous whole and free life unfettered by any man These women's stories and Rushing's literary and literate framing of their lives will ring true to many in the university *School-Based Teacher Education* Anne Campbell, Ian Kane, 2013-11-26 First Published in 1998 The idea for this book came from involvement in a research project the Mentoring in Schools project funded by the Esmée Fairbairn Charitable Trust between September 1993 and July 1995 The book also draws on local evaluation studies of previous pilot projects such as the Articled Teacher Scheme and partnership initiatives with primary schools A readable interactive book which presents the phenomenological aspects of school based training the

human face of mentoring and which tells how people actually experience school based teacher education partnerships

*The Return Of The Mentor* Brian J. Caldwell, Earl M.A. Carter, 2003-09-02 This is a book on the good practice of mentoring written by scholars and practitioners in education health and industry It considers the roles of the mentor mentee in changing workplaces affected by external forces including technology the economy and the dismantling of middle management structures and offers guidelines for those who seek good practice and the nurturing of the individual in a caring and collaborative culture A brief history of mentoring and its subsequent usage is presented with special attention paid to the gender issues New concepts such as shadowing and reflective interviewing are introduced and explained and strategies are presented in such a way that they can be applied and adapted in any setting The whole process therefore aims to empower the professional in a school university or industrial level and with others towards a more effective and perceptive practice All those involved in education and training of individuals at a school college or industrial level training will find this useful

**Women and Men in Political and Business Elites** Mino Vianello, Gwen Moore, 2004-09-18 Awarded the Descartes Prize 2004 of the European Commission How do gender inequalities translate at the top of politics and business Is the gender gap eliminated for the most influential players in industrial democratic society This informed and compelling analysis examines the demographic characteristics family circumstances and career paths of a group of elite women The book is noteworthy for being one of the first empirically based studies of women elites Drawing on a sample from no less than 27 countries a convincing and highly original picture is constructed that informs readers of career paths values social networks and gender battles for women elites Co ordinated by Mino Vianello and Gwen Moore the research fills in a huge gap about how power actually operates in industrial democratic societies It enables us to test the view that substantial equality between the sexes has been achieved in the twenty first century It constitutes a landmark work both in the study of gender difference and the analysis of power The findings will be of interest to academics and advanced students in a wide range of disciplines including stratification globalization political science international relations gender sociology organizational studies and much more

**Women and Men of the States** Mary E. Guy, Kenneth J Meier, 2016-09-16 This text discusses and compares men's and women's career patterns in state government It is based upon newly conducted original research surveys in six states From this research generalisations are made concerning commonalities and differences between men's and women's experiences in public administration at the state level This is a new area of research while much has been done at the federal level and there is a federal database to work from until now little work has been

done and little data is available for the states
