The ace of the dealer's hand is worth different than that of the player's hand. The dealer must use the ace as 11 if the hand totals 10 or 11 and 1 if the hand totals 12 or more.

A soft 17 is when the dealer's hand contains an ace, it is counted as 11. If the dealer has a hard 17, it is counted as 17.

Banking - Environmental Element
The objective of banking is to maximize the player's bankroll. This is done by betting on the dealer's hand and winning. The player's bankroll is the amount of money they have left after betting.

THE GAME OF BLACKJACK

Blackjack, also known as Twenty-one, is one of the world's most popular casino games. In Blackjack, the dealer deals cards to seven players. These rules vary from casino to casino, but all versions of the game are based on the same principles. The objective of the game is to get a 21 or closer to that value than the dealer.

Each turn and round the dealer deals two cards to each player and himself. The dealer's hand is always visible, while the player's hand is hidden. The player's hand is dealt face up while the dealer's hand is dealt face down. The player's hand is dealt first, and the dealer's hand is dealt last. Once all of the players have completed their turn, the dealer's turn begins.
