

Welcome Speech for Opening Ceremony 2007 of the Master's Programme Land Management and Land Tenure

Distinguished Guests, Ladies and Gentlemen and Dear Master's Students,

Good morning to all of you. I would like to extend a warm welcome to each and every one of you to this opening ceremony of the Master's Programme session 2007/2009. Today is a day of celebration and festivity dedicated to all new students who are going to join us from today.

Land –this is the platform for social, economic, political and cultural activities. Land is the prerequisite or success factor for poverty eradication, hunger reduction and sustainable development. Here I can recall the statement made in the famous Vancouver Conference on Habitat in 1976. One of which was:

"Land, because of its unique nature and crucial role it plays in human settlement, cannot be treated as an ordinary asset, controlled by individuals and subject to pressures and inefficiency of the market".

This brings us to the question of proper land management. Just think about one crucial issue of urban land and that is Poor's access to land. Quite understandably that the poor are the most handicapped group of people in the urban land market and their problem of land is getting more and more difficult every day. To change this situation government needs deep commitment and professional support with innovative strategies for land management.

In Johannesburg World Summit, the heads of states declared:

"All of us are united and moved by a deeply-felt sense that we urgently need to create a new and brighter world of hope".

In fact this is the background or dimension and the scientific challenge to our master's programme Land Management and Land Tenure. I think it is an indispensable contribution to the promise of Germany's chancellor to implement the ethical sense of Johannesburg Declaration.

In 2001 we started our master's programme. Now this is the year 2007. During this time 5 batches have been graduated. As an ambassador of the centre of land management and land tenure they are working in relevant fields of land management in their home countries. We are contributing to the qualification of future experts in the field of land management through this programme. It is wonderful to think that we have total 72 alumni representing 23 countries. That is truly international.

Ladies and Gentlemen,

In the journey of this master's programme, we have received manifold supports from different corners. In this happy day I would like to extend my gratitude and thanks to:

- TUM, i.e. its President, council and the Dean of the Faculty
- The Bayerische Staatskanzlei, DAAD, GTZ and Hanns-Seidel-Stiftung and
- Förderkreis Bodenordnung und Landentwicklung München with all its private sponsors

Without their contributions it was not easy to make this programme successful one.

Botsman,Adam Clulow,2021-09-16 2018 marked the 150th anniversary of Japan s Meiji Restoration a milestone that the government of Prime Minister Abe Shinz has actively sought to highlight and celebrate Whereas other studies have focused on the events of the Meiji Restoration itself this volume reflects upon the politically charged history of commemorating Meiji particularly in the twentieth century This other history of Meiji remains largely unknown outside of Japan even though it is particularly relevant in the aftermath of a wide range of government sponsored celebrations marking the Meiji Sesquicentennial At moments of official historical commemoration it is natural enough to imagine a direct line linking the act of commemoration to the original event that is the ostensible focus of remembrance and celebration In fact the commemoration of Meiji today cannot be understood simply in terms of the relationship between the present and 1868 or even the longer Meiji period The chapters in this volume highlight the politics of memory as they played out across a series of milestones over the twentieth century Together they show the pressing need to look more closely at issues of commemoration as a key topic in their own right The chapters in this book were originally published in Japanese Studies **Air Force and Space Digest**,2015-07 **Library Services for Immigrants and New Americans** Jennifer

Incantations of the Guiltless , Making Music, Making Society Josep Martí,Sara Revilla,2018-01-23 A society is the result of interacting individuals and individuals are also the result of this interaction This interaction happens through music among other factors As such music constitutes a powerful resource for symbolic interaction which constitutes the medium and substance of a culture The importance of music in a society is clearly brought to light in the role that it plays in the three basic parameters of the social logics identity social order and the need for exchange If music is so important to us it is because apart from its assigned aesthetic values it fits closely with the dynamics of each of these three different parameters These parameters which are consubstantial to the social nature of the human being constitute the core of the book as they manifest in musical practices This publication addresses important issues such as the role of music in shaping identities how music and social order are intertwined and why music is so relevant in human interaction The last part of the book explores issues related to the social application of musical research The volume brings together specialists from different academic disciplines with the same powerful starting point music is not merely something related to the social but rather a social life itself something capable of structuring the social experience
