multi drop driver I thoroughly enjoyed reading this for about 2 hours or so Customer Review from the First Edition Anon 4 0 out of 5 stars Courier work Reviewed in the United Kingdom on 27 December 2018 Verified Purchase A good book on starting out as a courier     Under the Blue Lights David Sheldrake,2011-06-21 I joined the Essex Ambulance Service on 21 April 1981 at the tender age of twenty one I underwent training at Witham and in the first year completed the driver training and ambulance aid training both of which were conducted at Markfield in Leicestershire When all this training was completed I was ready to undertake emergency calls and as all new students I was indeed very excited but nervous on what I would face dealing with people when they face life changing emergencies I was pleased to be working with David as any new individual needed the experience and guidance of colleagues I can remember sitting in the vehicle outside Southend Hospital when our radio was activated and I was given my first emergency call You hoped for something simple straightforward that would settle the nerves and that would not involve all your new found skills being brought to the fore on the first call I was to be disappointed The call was given as a gas explosion An elderly person was involved My mind raced as to what to expect and more importantly what I would do Dave was great he was calm professional and experienced We set off with Dave driving and me worrying We arrived with the fire service There had been a gas explosion but it was a small gas fire The injuries were not life threatening and we treated my very first 999 call with Dave standing shoulder to shoulder guiding and supporting The patient was conveyed and the emergency call went well I remember this call very vividly as it was my first call and since then thirty years have passed I have gone from that ambulance man to now ensuring we still deliver high quality patient care across Essex as the general manager for this region Over the years I have worked with many new people and that first lesson from Dave paid dividends as that supportive and guiding nature is invaluable to people undertaking this challenging role There were many other occasions I worked with Dave and from that point I have progressed and indeed am extremely grateful for those early formative years     Land Rover Series II,IIA and III Restoration Manual Emrys Kirby,2023-05-18 A Series Land Rover has to be the ultimate life sized automotive jigsaw puzzle Simple to repair with a good supply of new and used parts a restoration is well within the capabilities of an amateur mechanic While the official Parts and Workshop Manuals can be considered essential reading they were written for professional mechanics working on reasonably new unmodified vehicles not a 60 year old model assembled with parts from different eras They will tell you very little about parts compatibility over the generations how to repair a bulkhead or front panel or the best techniques to assemble your vehicle onto a new chassis This manual seeks to answer many of the commonly asked questions and offers practical solutions tips and techniques for the common problems encountered when restoring and maintaining a Series Land Rover It covers history vehicle development and compatibility of parts the overhaul of the major mechanical components including engine gearbox and axles practical techniques for body repairs fitment and alignment in depth chassis and bulkhead repairs how to decide between saving or replacing a major component the current availability of components major current restoration
