this book states the role of freedom is probably overrated in the course of human history Many historians espouse the idea that all people crave freedom Rather what they really crave is order food on the table and a roof over their head If they have those things then they have the luxury of seeking to be free The final part of the book deals with specific people of the world including the Vikings the Mongolians the Chinese and many more **Macroeconomic Theory and Its Failings** Steven Kates,2010-01-01 This innovative book focuses on the current global financial crisis and the inadequacies of the economic theories being used to guide policy In so doing it tackles the economic theories that have been used firstly to understand its causes and thereafter to contain the damage it has brought *Catalogue* United States Naval Academy,1978 World Wide ,1915 Annual Catalogue, with Announcements University of Arizona,1922
