18% at private not for profit four year institutions and 55% at four year for profit institutions In contrast we find no consumer response when analyzing 60 basis point decrease in the price of federal Parental PLUS loans at some schools using same datasets and similar estimation techniques How to Pay for College Student Loan Hero, According to College Board a year of tuition at a public four year school in 1987 cost 3 190 Now a year at that same school would cost 9 970 College prices are increasing and going to school is more expensive than ever before But that doesn't mean you have to resign yourself to borrowing hundreds of thousands of dollars to earn a degree We at Student Loan Hero created this guide to a complicated financial aid system so that you know all your options and can make informed choices I hope this encourages you to explore as many scholarship and grant opportunities as possible and navigate through the process of applying for federal and private student loans Exit Counseling Brochure ,1994 **Federal Student Loan Programs** Federal Student Aid (ED),2014 For those needing a loan to attend college think federal aid first Federal student loans usually offer borrowers lower interest rates and have more flexible repayment terms and options than private student loans This brief report answers the following questions about federal aid 1 What is a federal student loan 2 What is a private student loan 3 Why are federal student loans a better option for paying for college 4 How much should I borrow and 4 A chart presenting the types of federal student loans that are available *Financing Education a New Way* - Harmon Foundation, inc. Innovative Learning Models National Association of Student Financial Aid Administrators (NASFAA),2015 The rules systems and processes that work for traditional term based brick and mortar programs do not always work to advance the innovation that currently exists within higher education and the recommendations in this paper are the first step to help ensure barriers are eliminated that stifle this innovation Innovative learning models provide a means for individuals to learn independent of time or place in order to earn a higher education credential that is credible to both academic institutions and employers The Higher Education Act HEA and Title IV regulations 34 CFR 600.2 look at seat time students completing a certain number of courses and hours within a defined academic period with certain requirements on instructional time Reauthorization of the HEA while keeping credit and clock hours needs to create an alternative way of looking at higher education focused on evidence of student learning what students actually know and can do instead of time Ultimately the federal student aid system must be updated to allow for greater access to programs offered in innovative formats that are not based on traditional credit hour or clock hour models A guiding principle of this task force is to not stand in the way of students being successful and do what is best to meet both the needs of individual learners and the institutions serving these students The recommendations proposed by this task force focus on accelerating time to degree completion improving access lowering total educational cost and keeping student loan indebtedness to a minimum In an attempt to create an explicit process to award financial aid based on actual learning and demonstrated competency rather than time spent in class five themes emerge The following themes set the platform for the statutory and regulatory recommendations 1 flexibility for students and institutions 2 accountability 3 cost of education and federal financial aid 4 complexity and 5 barriers Appended are 1 Recommendations 2 Resources for Innovative Learning Models and 3 a Glossary
