

Compare and Contrast

- To **compare and contrast** means to tell how two or more things are *alike* and *different*.
- Clue words such as *like* and *as* can show similarities. Clue words such as *however* and *instead* can show differences.

Directions Read the following passage. Then answer the questions below.

Is the hand quicker than the eye? Sometimes. A magician may use quick, careful hand movements to make you think you have seen or heard something you haven't. Magicians also use optical illusions, images that fool the eye. These illusions often use mirrors, painted backdrops, or special lighting. Optical illusions make you think you see

something on the stage that is not there. Magicians also use illusions of sound to confuse an audience. You may hear someone's voice sounding like it comes from a box that is actually empty. You may hear the sound of a coin hitting the floor even if no coin has been dropped. Illusions like these make magic seem real.

1. How are the hand movements and optical illusions used by magicians similar?

2. How are these two kinds of visual tricks used by magicians different?

3. How does the sound of a voice contrast with the use of hand movements?

4. Name one other comparison or contrast you could make using this passage.

5. On a separate sheet of paper, predict how a magician might be able to fool one of our other senses, such as the sense of touch or smell.

Home Activity Your child compared and contrasted ideas in a passage and also used these ideas to make a prediction. Have your child compare and contrast two performers or entertainers. Then ask your child to predict other ways two entertainers could be alike and different.

Hott, Pamela Williamson, 2024-10-02. Effective teaching starts with quality instruction that most students respond well to. Both students with exceptionalities who are eligible to receive special education and related services and students who are placed at risk due to circumstance require, deserve, and are legally entitled to quality intervention. *Quality Instruction and Intervention for Elementary Educators* offers an accessible resource for educators interested in evidence based strategies to ensure all students have access to an excellent education. Two dedicated chapters authored by leading content and strategy experts in the field are devoted to content areas. The first chapter focuses on quality instruction with academic subject matter specialists as lead authors with interventionists supporting. The second chapter focuses on effective intervention with the interventionists taking the lead author roles and academic subject matter specialists supporting. Between the two chapters is a dialogue between the teams of authors bridging instruction and intervention. This unique approach bridges the gap between quality instruction and effective intervention, an often overlooked component of teacher education.
