Unlike opinionated Top 100 and arbitrary Best of lists, these are the real thing: groundbreaking films that make up the backbone of American cinema. Each of the 50 newest titles in the National Film Registry is covered in a detailed essay that includes cast credits and major awards, as well as screening information and film stills. From well-known movies like *The Muppet Movie* and *Dog Day Afternoon* to more obscure films like *A Study in Reds* and *Hot Dogs for Gauguin*, Daniel Eagan's beautifully written and updated edition is for anyone who loves American movies and who wants to learn more about them.

***Novel Ecosystems*** Richard J. Hobbs, Eric S. Higgs, Carol Hall, 2013-01-07 Land conversion, climate change, and species invasions are contributing to the widespread emergence of novel ecosystems, which demand a shift in how we think about traditional approaches to conservation, restoration, and environmental management. They are novel because they exist without historical precedents and are self-sustaining. Traditional approaches emphasizing native species and historical continuity are challenged by novel ecosystems that deliver critical ecosystem services or are simply immune to practical restorative efforts. Some fear that by raising the issue of novel ecosystems, we are simply paving the way for a more laissez-faire attitude to conservation and restoration. Regardless of the range of views and perceptions about novel ecosystems, their existence is becoming ever more obvious and prevalent in today's rapidly changing world. In this first comprehensive volume to look at the ecological, social, cultural, ethical, and policy dimensions of novel ecosystems, the authors argue these altered systems are overdue for careful analysis and that we need to figure out how to intervene in them responsibly. This book brings together researchers from a range of disciplines together with practitioners and policy makers to explore the questions surrounding novel ecosystems. It includes chapters on key concepts and methodologies for deciding when and how to intervene in systems, as well as a rich collection of case studies and perspective pieces. It will be a valuable resource for researchers, managers, and policy makers interested in the question of how humanity manages and restores ecosystems in a rapidly changing world. A companion website with additional resources is available at [www.wiley.com/go/hobbs/ecosystems](http://www.wiley.com/go/hobbs/ecosystems).

Saunders, 2016-12-21 *The Rhetorical Power of Children's Literature* is an edited volume with contributions from established and new scholars of rhetoric, offering case studies that analyze a full array of genres in children's literature, from picture books to young adult novels. Collectively, this volume's contributions interrogate how children's literature is a powerful yet under-examined space of rhetorical discourse that influences one of the most vulnerable segments of our population. This book is singularly unique given that it will be the first collection of essays on children's literature from the distinct perspective of the field of Communication. Beyond topical novelty, the contributors utilize a range of scholarly methods to analyze instances of the rhetoric of children's literature. Consequently, essays in this volume may be read for both their specific topical content and as exemplars for multiple

methodological approaches to the study of the rhetoric of children's literature Collectively the contributors set out to contribute to our knowledge of how instances of children's literature operate as rhetorical discourses The volume is organized by case studies approached through critical rhetorical lenses that analyze specific instances of children's literature from two distinct stages of children's developmental reading experiences including pre-early literacy and fluent reading Structurally the book includes eight content chapters divided evenly with four chapters analyzing books for young children and four chapters analyzing books targeting audiences from late childhood to adolescence An overview of each content chapter accompanies this proposal

**Frankenstein: A Modern Retelling** Prince Penman, A Haunting Reimagining for the Digital Age Where Ethics Collide with Innovation In Frankenstein A Modern

Retelling Prince Penman resurrects Mary Shelley's timeless tale for the 21st century posing a chilling question: What happens when creation outpaces conscience? Blending the gothic dread of Shelley with Malcolm Gladwell's incisive storytelling and Toni Morrison's lyrical humanity, this provocative journey plunges readers into the ethical minefields of AI, CRISPR gene editing, and Silicon Valley's unchecked ambition. From the ashes of Theranos hubris to the rise of sentient algorithms, Penman exposes the high cost of innovation without accountability. Meet developers haunted by autonomous weapons, bioethicists wrestling with CRISPR babies, and whistleblowers battling deepfake scandals, all while grappling with a world where technology's promise threatens to eclipse its humanity. Why This Book Will Captivate You: Silicon Valley Unmasked: Witness the rise and fall of tech titans who prioritized disruption over duty; AI Ethics Laid Bare: Can a chatbot learn empathy? Should a machine hold a patent? CRISPR's Double Helix: Explore the moral tightrope of editing life itself; Climate Tech's Reckoning: Can we undo the damage of green solutions gone wrong? Perfect for fans of Yuval Noah Harari's grand narratives and Margaret Atwood's speculative realism, this modern retelling is more than a warning; it's a roadmap. With gripping anecdotes, tech accountability case studies, and Oliver Sacks-inspired problem solving, Penman challenges us to ask: How do we innovate without losing our souls?
