*Outclassed* Joan C. Williams, 2025-05-20 An eye opening urgent call to mend the broken relationship between college and non college grads of all races that is driving politics to the far right in the US Is there a single change that could simultaneously protect democracy spur progress on climate change enact sane gun policies and improve our response to the next pandemic Yes changing the class dynamics driving American politics The far right manipulates class anger to undercut

progressive goals and liberals often inadvertently play into their hands In *Outclassed* Joan C Williams explains how to reverse that process by bridging the diploma divide while maintaining core progressive values She offers college educated Americans insights into how their values reflect their lives and their lives reflect their privilege With illuminating stories from the Portuguese admiral who led that country's COVID response to the lawyer who led the ACLU's gay marriage response and more Williams demonstrates how working class values reflect working class lives Then she explains how the far right connects culturally with the working class deftly manipulating racism and masculine anxieties to deflect attention from the ways far right policies produce the economic conditions disadvantaging the working class Whether you are a concerned citizen committed to saving democracy or a politician or social justice warrior in need of messaging advice *Outclassed* offers concrete guidance on how liberals can forge a multi racial cross class coalition capable of delivering on progressive goals

*Towards a holistic approach to support learners at risk of interrupted development* Macalane J. Malindi,Johnnie Hay,Thabo Makhalemele,2024-02-23 The COVID 19 pandemic and the restrictions that came with it led to unprecedented disruptions in learner development and put them at risk of poor developmental outcomes It is thus important that the extent of the disruption on their development and the support needs of learners be investigated Researching the impact of the disruption should focus on holistic development In this book the authors use multiple research approaches and methods of gathering data in their respective fields to examine the impact of the disruption and determine the support needs of learners Data gathered through the different methods are processed and findings are presented The findings have implications for both practice and future research in the fields of inclusive education learner support educational psychology movement education Life Orientation and curriculum development *Class, Race, Disability and Mental Health in Higher Education* Mike Seal,2022-05-19 All universities have to produce plans to eliminate the gaps in access success and participation of disadvantaged student in higher education setting targets with regards to Global Majority working class disabled and student with mental health conditions In this book Mike Seal examines the terminology theoretical debates and positions identifies the causes of gaps and evaluates proposed initiatives He argues that there is an unexamined assumption that higher

education is a good thing materially and intellectually which demonises those for whom this is questionable The book also highlights the continuing structural and individual discrimination in terms of class race and disability and a denial of the extent to which higher education is a cause of mental health issues and negative well being It uncovers unexamined assimilation models in higher education that expects these students to abandon their culture and communities despite students wanting to give back to these communities being a major extrinsic motivation and to embrace a culture that will not embrace them The book starts from the perspective that contemporary international higher education reproduces existing privileges and the book goes on to argue that widening participation agendas should recognise the changing nature of academic life through a more inclusive holistic approach Seal argues that it is essential to include an informed understanding of how students position themselves in academia and how their identity and academic status is enabled and developed with the support of the university In order to do this universities need to redefine their purpose and the nature of their relationships with the communities they purport to serve

*Curated Stories* Sujatha Fernandes, 2017-08-10 Storytelling has proliferated today from TED Talks and Humans of New York to a plethora of story coaching agencies and consultants Heartbreaking accounts of poverty mistreatment and struggle may move us deeply But what do they move us to do And what are the stakes in the crafting and use of storytelling In *Curated Stories* Sujatha Fernandes considers the rise of storytelling alongside the broader shift to neoliberal free market economies She argues that stories have been reconfigured to promote entrepreneurial self making and restructured as easily digestible soundbites mobilized toward utilitarian ends Fernandes roams the globe and returns with stories from the Afghan Women's Writing Project the domestic workers movement and the undocumented student Dreamer movement in the United States and the Misi n Cultura project in Venezuela She shows how the conditions under which certain stories are told the tropes through which they are narrated and the ways in which they are responded to may actually disguise the deeper contexts of global inequality *Curated stories* shift the focus away from structural problems and defuse the confrontational politics of social movements Not just a critical examination of the contemporary use of narrative and its wider impact on our collective understanding of pressing social issues *Curated Stories* also explores how storytelling

might be reclaimed to allow for the complexity of experience to be expressed in pursuit of transformative social change

*Student Life in a Class Society* Joan Abbott, 2014-05-17 *Student Life in a Class Society* covers specific topics within the general field of social anthropology. This book discusses the social class composition and influence in the student body of the University of Edinburgh as well as the motives of students entering the university. This book is composed of four parts encompassing 16 chapters. The first parts deal first with the curvilinear model of organizational change in societies, research methods, social class as a factor in participation in and leadership of student organizations, spatial factors in social relations, relevance of social class in defined social situation, and cultural factors in social relations. These parts also look into the general reactions of students and their families. The remaining parts consider the concepts of student's social mobility and social motility, the student's attitude to university expansion, and the student in control and rebellion. These parts are also concerned with the structural distances and institutional socialization as well as the research problems in education. The book can provide useful information to psychologists, teachers, students, and researchers.

*Who's in the Game?* Terri Toles Patkin, 2020-11-20 Some board games like Candy Land, Chutes and Ladders, Clue, Guess Who, The Game of Life, Monopoly, Operation, and Payday have popularity spanning generations. But over time, updates to games have created significantly different messages about personal identity and evolving social values. Games offer representations of gender, sexuality, race, ethnicity, religion, age, ability, and social class that reflect the status quo and respond to social change. Using popular mass market games, this rhetorical assessment explores board design, game implements, tokens, markers, 3D elements, and playing instructions. This book argues the existence of board games as markers of an ever-changing sociocultural framework, exploring the nature of play and how games embody and extend societal themes and values.

**Cool** Steven Quartz, Anette Asp, 2015-04-14 This engrossing history merges evolutionary biology and economics to explain our spending habits and show how coolness is at the heart of consumerism. Mental Floss: We live in a world of conspicuous consumption where the things we buy not only satisfy our needs but also communicate our values, identities, and aspirations. In *Cool*, Steven Quartz and Anette Asp bring together groundbreaking findings in neuroscience, economics, and evolutionary biology to show how our concepts of cool—be it designer jeans, smartphones, or craft beer—help drive the global economy. *Cool* puts forth a provocative theory of consumerism based on our brain's innate status seeking and social calculator. The authors highlight the underlying processes that guide our often unconscious decision making. They also pull back the curtain on choice architects who design store interiors as well as coolhunters who scour Berlin and Tokyo for the latest trends. Quartz and Asp follow the evolution of cool consumption from the mid twentieth century through the emergence of the Internet in the 1990s, finally unpacking the social motivations behind today's hip, ethical consumption. Taking us from Norman Mailer to normcore, *Cool* is surprising at every turn and will forever change the way you think about money, status, and your next purchase.

Moral and Spiritual Leadership in an Age of Plural Moralities Hans Alma, Ina ter Avest, 2019-01-17 In crisis situations such as terror attacks or

societal tensions caused by migration people tend to look for explicit moral and spiritual leadership and are often inclined to vote for so called strong leaders Is there a way to resist the temptation of the simplistic solutions that these strong leader offer and instead encourage constructive engagement with the complex demands of our times This volume utilises relational and dialogical perspectives to examine and address many of the issues surrounding the moral and spiritual guidance articulated in globalizing Western societies The essays in this collection focus on the concept of plural moralities understood as divergent visions on what is a good life both in an ethical aesthetical existential and spiritual sense They explore the political cultural context and consequences of plural moralities as well as discussing challenges possibilities risks and dangers from the perspective of two promising relational theories social constructionism and dialogical self theory The overarching argument is that it is possible to constructively put in nuanced moral and spiritual guidance into complex plural societies By choosing a clear theoretical focus on relational approaches to societal challenges this interdisciplinary book provides both a broad scope and a coherent argument It will be of great interest to scholars of social and political psychology leadership and organization religious studies and pedagogy
