

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

**Talent Knows No Color** Elaine Clift Gore, 2007-10-01 In the summer of 1970 the members of the New Orleans Fifth Circuit Court of Appeals understood clearly the realities of race in the South Houston Texas like other Southern cities had made haste toward racial school desegregation as slowly as the White Southern Federal courts would allow When the High School of Performing and Visual Arts opened its doors in Houston a year later a new superintendent and liberal dominated Board of Education wished to demonstrate the positive potential of a voluntarily desegregated student body HSPVA was the first United States public school for the arts specifically used for racial desegregation purposes the prototype for the first public urban magnet program of desegregation used to replace a standing court order and a continuing prototype for other public magnet schools for the arts across the United States Talent Knows No Color is a 35 year history of HSPVA exemplary in both arts and academics which chronicles multi perspective participant experiences within the context of ever changing district education policies and demographics Ten years of school system and HSPVA archival research examination of local newspapers and oral history interviews allow a rich narrative unusual among the already limited number of scholarly histories of individual public schools It is the description and analysis of everyday occurrences that assist the reader in understanding what Series Editor O L Davis Jr refers to as the continuing likely never ending practical development of one particular high school and its curriculum **The United States Catalog** ,1924 The Launching of Duke University, 1924-1949 Robert Franklin Durden, 1993 In this rich and authoritative history distinguished historian Robert F Durden tells the story of the formation of Duke University beginning with its creation in 1924 as a new institution organized around Trinity College As Durden reveals this narrative belongs first and foremost to Duke University s original President William Preston Few whose visionary leadership successfully launched the building of the first voluntarily supported research university in the South In focusing on Duke University s most formative and critical years its first quarter century Durden commemorates Few s remarkable successes while recognizing the painful realities and uncertainties of a young institution Made possible by a gift from James B Duke the wealthiest member of the family that had underwritten Trinity College since 1890 Duke University was organized with Few as president Few s goal was to turn Duke into a world class institution of higher education and these early years saw the development of much of what we know as Duke University today Drawing on extensive archival material culled over a ten year period Durden discusses the building of the Medical Center the rebuilding of the School of Law the acquisition of the Duke Forest and development of the School of Forestry the nurturing of the Divinity School and the enrichment of the Graduate School of Arts and Sciences It was also during this period as Durden details that such treasures as the Sarah P Duke Gardens were created as well as some near treasures as seen by the failed attempt to start an art museum Although the story of the birth of this University belongs largely to William Preston Few other people figure prominently and are discussed at length Alice Baldwin who led in the establishment of the Woman s College

emerges as a fascinating figure as do William H Wannamaker James B Duke William Hanes Ackland Robert L Flowers Justin Miller and Wilburt Cornell Davison among others Although impressive growth occurred in Duke s formative years tensions also arose The need to strike an institutional balance between the twin demands of teaching and research of regional versus national status combined with continual shortages of funds created occasional obstacles The problem of two sets of trustees one for the university and another for the Duke Endowment loomed largest of all As Few himself said during these early years Duke successfully embarked on a long journey for it was not until after World War II that Duke University consolidated the growth begun in the inter war years An important contribution to the history of Southern higher education as well as to Duke University this book will be of great interest to historians alumni and friends of Duke University alike **Garner V. Holmes,2010-11-23 A different kind of history Stalin s School brings a unique human dimension to the Soviet Union of the 1930s and a new understanding of Stalinism as a cultural and psychological phenomenon From 1931 to 1937 School No 25 was the most famous and most lavishly appointed school in the Soviet Union instructing the children of such prominent parents as Joseph Stalin head of the Communist Party Viacheslav Molotov head of the Soviet State and Paul Robeson American actor and singer Relying on published records materials in eleven archives accounts left by visiting foreigners including the prominent American educator George Counts and thirty six interviews with surviving pupils from the 1930s Holmes brings the school to life The school s administrators teachers pupils friends and foes become companions as well as objects of this study as we walk the schools halls enter its classrooms eavesdrop on feuding officials who debate its fate and learn something of what the school and the period meant for its youth Photographs of the school s teachers and students and reproductions of the students notebooks drawings and watercolors add personality to this compelling story Holmes uses the experience of School No 25 as a microcosm and mirror

of Stalinism illuminating the interplay of state and society in decision making and providing an opportunity to examine Stalinism from ideological cultural and psychological perspectives While placing the school s history in the context of the coercion corruption and repression of the 1930s Holmes challenges the prevailing view that state and public spectacle on the one hand and society and private life on the other were contrasting entities School No 25 molded these elements into an organic whole In the intimate setting of Stalin s School the degree of acceptance of Stalinism transcends historians customary reference to the fear or privilege a Soviet citizen experienced In a mutually reinforcing way forced compliance and voluntary choice moved individual teachers and pupils to accept a structured environment both at school and in society as the means to a powerful prosperous and just Soviet Union
