**Signature Wounds** David Kieran,2019-04-02 The surprising story of the Army s efforts to combat PTSD and traumatic brain injury The wars in Iraq and Afghanistan have taken a tremendous toll on the mental health of our troops In 2005 then Senator Barack Obama took to the Senate floor to tell his colleagues that many of our injured soldiers are returning from Iraq with traumatic brain injury which doctors were calling the signature wound of the Iraq War Alarming stories of veterans taking their own lives raised a host of vital questions Why hadn t the military been better prepared to treat post traumatic stress disorder PTSD and traumatic brain injury TBI Why were troops being denied care and sent back to Iraq Why weren t the Army and the VA doing more to address these issues Drawing on previously unreleased documents and oral histories David Kieran tells the broad and

nuanced story of the Army's efforts to understand and address these issues challenging the popular media view that the Iraq War was mismanaged by a callous military unwilling to address the human toll of the wars. The story of mental health during this war is the story of how different groups—soldiers, veterans, and their families, anti-war politicians, researchers, and clinicians, and military leaders—approached these issues from different perspectives and with different agendas. It is the story of how the advancement of medical knowledge moves at a different pace than the needs of an Army at war, and it is the story of how medical conditions intersect with larger political questions about militarism and foreign policy. This book shows how PTSD, TBI, and suicide became the signature wounds of the wars in Iraq and Afghanistan, how they prompted change within the Army itself, and how mental health became a factor in the debates about the impact of these conflicts on US culture.
