**Grading the Nation's Report Card** National Research Council, Commission on Behavioral and Social Sciences and Education, Board on Testing and Assessment, Committee on the Evaluation of National and State Assessments of Educational Progress, 2000-04-23 The National Assessment of Educational Progress NAEP known as the nation's report card has chronicled students' academic achievement in America for over a quarter of a century. It has been a valued source of information about students' performance providing the best available trend data on the academic achievement of elementary middle and secondary school students in key subject areas. NAEP's prominence and the important need for stable and accurate measures of academic achievement call for evaluation of the program and an analysis of the extent to which its results are reasonable, valid and informative to the public. This volume of papers considers the use and application of NAEP. It provides technical background to the recently published book *Grading the Nation's Report Card: Evaluating NAEP and Transforming the Assessment of Educational Progress* NRC 1999 with papers on four key topics: NAEP's assessment development, content validity, design and use and more broadly the design of education indicator systems
