the roadsters Tops aren't often chopped for those reasons today. However, when viewing the works of art that have been created by the best chopping masters, it's clear that enhanced aesthetics is the only reason that is needed. Chopping a top may seem simple at first, especially if you think that old tops are mostly square, but it is not. The process of chopping a top severely alters the angles of the A pillars, the intersections where metal meets at the C pillars, and the rake and fitment of the glass. In *How to Chop Tops*, hot rod expert and historian Tony Thacker takes you through the process of chopping a top. Individual chapters feature a variety of chops that have been performed by the industry's most talented fabricators. The most popular candidates for this modification are covered, including Ford Model As, Model Ts, 1932 3 window and 5 window coupes, 1933s, 1934s, and Shoeboxes. Featured industry experts include Rick Lefever, Evin, and Justin Veazie, the Kennedy Brothers, Bobby Walden, Troy Ladd's Hollywood Hot Rods, Rolling Bones, Roy Brizio, Cornfield Customs, Max Grundy, and more. Whether you want to give chopping a try or you just want to see how it's done before hiring a professional, this book is a valuable addition to your library.
