scholarship cultural and theological hermeneutics pedagogy and community knowledge democracy and citizenship Yet the three major disciplines or discourses covered in this work include multicultural education theology and hermeneutics through the lens of human flourishing and the concept of the good life From this angle this project is written from three different methods and approaches that intersect with each other a theology of contextualization a hermeneutics of interculturality and a pedagogy of cultural literacy and transformative community knowledge The book advances the idea that theological education should be the starting point to foster candid conversations about the importance of democracy and human rights civic engagement and the political life inclusion and diversity and pluralism and difference in our multicultural society The book uses the tools of multicultural education and cultural knowledge to enhance democracy and promote fundamental human virtues that would sustain the good life and human flourishing in the world in the Aristotelian sense and in the Socratic idea of local and world citizenship Finally this text offers an alternative vision to contemporary theological education to deconstruct the white male and Eurocentric narratives of theological education and Christian scholarship
