Internet dating is growing at double digit rates every year while other forms of finding a connection are flat or falling off. Internet dating although far from perfect is becoming the most effective and efficient method of getting introduced to a large number of available singles. *Online Dating For Dummies* shows you how to get your feet wet and how to dive in making informed choices and exercising good judgment as you: Sign up for a trial run on a dating site; Try to describe yourself for your personal profile; Initiate your first e-mail contact; Make your first in person meeting memorable; Identify frauds and players; Figure out what not to do if you really want to meet someone.
