**Interconnectivity, Subversion, and Healing in World Christianity** Afe Adogame, Aminta Arrington, 2023-07-13 The rise of Christianity around the world has been the impetus for much religious and social change The interconnectivity of religious centers has resulted in theological dialogue and innovation The subversion of long held categories of culture gender race spirituality theology and politics has naturally occurred along with the transgressing of borders and boundaries Yet at the same time there has been occasion for healing through intercultural experiences of forgiveness peacemaking and reconciliation Stimulated by the work and mentorship of Joel Carpenter who has done much to expand the study of world Christianity less through focusing on his own research and writing and more through amplifying the voices of others the international contributors to this volume from all six continents promote a deeper understanding of World Christianity through the exploration of such related themes Whether discussing primal spirituality in northeast India white supremacy in South Africa evangelical women and civic engagement in Kenya or Calvinism in Mexico the contributors draw upon ethnographic case studies to more deeply understand interconnectivity subversion and healing in World Christianity Their essays provoke a reorientation of Christian thought within the study of World Christianity enriching the current discourse and promoting vistas for further interdisciplinary studies

**Queering the South on Screen** Tison Pugh, 2020-04-22 Within the realm of American culture and its construction of its citizenry geography and ideology who are southerners and who are queers and what is the South and what is queerness Queering the South on Screen addresses these questions by examining the intersections of queerness regionalism and identity depicted in film television and other visual media about the South during the twentieth and twenty first centuries Southern queers on screen often reflect the fantasy of cultural stereotypes Editor Tison Pugh contends that when southern queers appear in films and on television and when southern queers watch these portrayals the inherent contradictions of these cultural depictions reveal the fault lines of gender geography and desire These underlying schisms point to the infinite if infrequently portrayed possibilities of actual queer southern life Examining a range of materials including gothic horror films and drag queens on public access television the contributors show that queer southerners have always expressed desires for distinctiveness in the making and consumption of visual media Read together the introduction and twelve chapters deconstruct premeditated labels of identity such as queer and southern In doing so they expose the reflexive nature of these labels to construct ideological fantasies of southerners regardless of the complexity of their lives

**Words for the Theatre** David Cole, 2019-05-29 In Words for the Theatre playwright David Cole pursues a course of dramaturgical self questioning on the part of a playwright centred on the act of playwriting The book's four essays each offer a dramaturgical perspective on a different aspect of the playwright's practice How does the playwright juggle the

transcriptive and prescriptive aspects of their activity Does the ultimate performance of a playtext in fact represent something to which all writing aspires Does the playwright s process of withdrawing to create their text echo a similar process in the theatre more widely Finally how can the playwright counter theatre s pervasive leaning towards the mistake of realism Suited to playwrights teachers and higher level students this volume of essays offers reflections on the questions that confront every playwright from an author well versed in supplying words for the theatre     Literature and the Legal Imaginary Subha Mukherji,Dunstan Roberts,2025-01-06 Tuning into the collective understanding of law as lived experience Knowing Justice is a timely and distinctive intervention in the field of law and literature It seeks to understand and inhabit the intersection between judicial procedure legal thinking and imaginative practice where epistemic processes that elude the formal discourses of law and legal history are generated and brought into view But the law in early modern England the focus of this book though not its horizon was also an imaginative resource and a repository of structures of feeling These are functions uniquely grasped through literary mediation because literature shares the representational modes and structures of law but not its methods or ends Bringing together established and younger scholars from literary studies legal history theology and law and employing a variety of approaches this collection of essays eschews flat description in favour of layered analysis cognisant of the plurality of concept practice and representation In using a literary lens it treats apparent binaries or distinct registers as interlinked constituents of an ecology and navigates the gap between abstract jurisprudence and the affective composite social event of justice or judgment Its perception of literature likewise is capacious including imaginative method literary strategies used by law and its cognate disciplines and hermeneutic and critical methods that are traditionally regarded as literary Its notion of epistemology meanwhile encompasses not simply the condition of judicial knowledge but also its process psychology and ethics it attempts to know justice at the same time as it attends to what justice knows fails to know or resists knowing
