Introduction

This article will focus on Inno Setup – a convenient tool intended to package applications for Windows OS.

Why Inno Setup? "Inno Setup today meets and even surpasses many commercial installers in feature set and stability," [Inno Setup developers' official website](#) says. Indeed, this tool is quite simple to learn and powerful in terms of its capabilities.

[Send us a message](#)

At the moment Inno Setup developers mention the following features as key ones:

- support for all versions of Windows starting from Windows 2000;
- 64-bit and 32-bit installation support;
- built-in Pascal script processor for more flexible customization;
- possibility to pack the application and all the files that are needed for its operation into one compact .exe file;
- Inno Setup supports several data compression modes. If necessary, built-in compression can be disabled and third-party archivers can be used;
- it allows adding registry keys during installation, launching additional applications during, before and after installation;
- possibility to delete registry keys and all traces of program activity, flexibly configure the uninstaller.
