

InterQual® Level of Care Criteria Acute Criteria

Review Process

Introduction

InterQual® Acute Level of Care Criteria provide support for determining the medical appropriateness of hospital admission, continued stay, and discharge. Acute Adult Criteria address the Observation, Acute, Intermediate, and Critical levels of care. Acute Pediatric Criteria include these levels of care and five additional levels of nursery care (Transitional Care, Newborn Level I, Special Care Level II, Neonatal Intensive Care Level III, and Neonatal Intensive Care Level IV).

Adult criteria are for review of patients ≥ 18 years of age. Pediatric criteria are for review of patients < 18 years of age.

Important: The Criteria reflect clinical interpretations and analyses, and cannot alone either resolve medical controversies of particular situations or provide the sole basis for definitive decisions. The Criteria are intended solely for use as screening guidelines with respect to the medical appropriateness of healthcare services and not for final clinical or payment determinations concerning the type or level of medical care provided, or proposed to be provided, to a patient.

When evidence in the medical literature to support the efficacy and effectiveness of the intervention or service is absent, mixed, or unclear, criteria reflect the opinion of McKesson's expert clinical consultants. It is based upon current best practice and is the product of an iterative process involving multiple clinicians with diverse expertise in varied practice and geographic settings.

Reference materials

Reference materials are provided with the criteria and should be used to assist in the correct interpretation of the criteria.

- **Abbreviations and Symbols List:** Defines acronyms, abbreviations, and symbols used in the criteria.
- **Alcohol Withdrawal Assessment tool:** A worksheet to document a patient's CWA-A score for alcohol withdrawal.
- **Bibliography:** References cited in the clinical content.
- **Clinical Revisions:** Provide details of changes to InterQual Clinical Criteria.
- **Drug List:** Categorizes drug names and classes mentioned within the criteria.
