Collectors Paul Griner, 2013-10-23 *Collectors* by critically acclaimed author Paul Griner is an exquisitely menacing story of one woman s dangerous fascination with a seductive mysterious man At her cousin s wedding Jean Duprez an advertising agency art director who specializes in effective but unsettling concepts for her clients meets a handsome stranger named Steven Cain What follows is the story of a relationship so ominous and puzzling that the reader is drawn into the author s designs as inevitably and as helplessly as Jean is drawn to Steven She seeks him out although he often seems indifferent to her she disregards his disturbing personal history and she tells him about her own transgressions And so it becomes intriguingly hard to say whether she is a possible victim of evil or has deliberately put herself in harm s way The story also dramatizes the intricacies of collecting particularly the wary bargaining between seller

and buyer In Paul Griner s hands this dance of flea market negotiation comes to seem nearly as sinister as the increasingly dark encounters between Jean and Steven One is a matter of guile and folly the other of life and death *Engineering Mathematics -I (Matrices and Calculus): For B.Tech First year First Semester students of JNTU, Hyderabad* Dr. T.K.V.
