Green,2012-12-07 From the naval battle of Guadalcanal to rescuing George Bush Sr in the Pacific here are the stories of US
submariners in WWII The Silent Service in World War II tells the story of America s intrepid submarine warriors in the words
of the men who served and fought in the Pacific against Japan When Pearl Harbor was attacked in 1941 the enemy had
already deployed naval forces but the United States was soon able to match them By 1943 new Gato class submarines were
making a difference carrying the war not just to the Japanese Imperial Navy but to the vital merchant fleet that transported
essential resources to the island country Starting with the American victory at Guadalcanal US submarine forces began to
constrict the Japanese sea lanes Operating independently and in wolfpacks they attacked convoys operating beyond the
range of American airpower making daring forays even into Japanese home waters Taking on Japanese warships as well as
rescuing downed airmen including the grateful first President Bush US submarines made an enormous contribution to our
war against Japan Aside from enemy action the sea itself could be an extremely hostile environment as many of these stories
attest From early war patrols in obsolescent unreliable S boats to modern fleet submarines roving the Pacific the forty six
stories in this anthology offer a full understanding of life as a US Navy submariner in combat *National Bureau of*
