Motivational Speech

Good evening, Members of the Institute, MPH I students, Ladies and gentlemen,

I am very pleased to be speaking to you today on behalf of the MPH Alumni. I hope that you feel as excited as I am to be part of this great moment. I'd like to draw your attention for a few minutes to share with you how important this day is to all of us.

I was asked by PHD to do a motivational speech and asked myself why, because I didn't graduate with a distinction, I had an overall score of 7.6, and saw my name only once on the grade rap that's a rap where you get your name printed on, every time you were the highest grade for as many, it is something to look forward to. To be honest, I only scored a high grade that time because the class really liked the professor, I could be restless in class, asked all kinds of questions and I liked to have fun.

Then I thought about the fact that I never had to do a test for an exam, I was always driven and tried to study very hard despite the fact that I didn't always keep to the "4 hours study a day" rule of Mr. LaMaha. In my mind I went back to my graduation day, March 29th 2014, an exciting day that finally came. That day I sat, and let my head fall around 3 o'clock in the afternoon, I was rushed to the emergency room with deep cuts and bruises on my forehead. We had to be at the institute at 5 O'clock for our graduation pictures (I'm not in any of them...)

I called Christina, our program manager, and told her that I would still attend the ceremony to share in the graduation success. Thank I was the one who was

British Education Control Officer in Occupied Germany, 1945–1949 David Phillips, 2023-11-30 Edward Aitken Davies 1899–1981 served as an Education Control Officer in the British Zone of occupied Germany from the early summer of 1945 until December 1949. He thus experienced the implementation of policy in the Zone from the very beginnings of the occupation until the founding of the Federal Republic of Germany in 1949. During the period 1945 to 1947, he wrote weekly letters home to his mother. Those letters, together with the many speeches he gave in Germany during his time as a leading British officer in the Hanover region, have not hitherto been available to researchers but can now be made accessible in edited form. The letters are placed in the context of developments in British policy and with explanatory notes on the detail. Taken together, his letters and other documents provide insights into the day-to-day lives of the impressive group of individuals who oversaw the development of education in Germany from post-war chaos to the reform and stability which restored the education system of the country to a pre-eminent status in Europe.

An Unbroken Educational Apartheid Legacy David E. Morgan Ph.D., 2015-03-17 This is a thought-provoking book on the black-white academic achievement gap in Chicago's predominantly black communities of color and what highly effective school boards can do to change it. In this book, the reader will be powerfully enlightened by a civil and human rights debate that calls for effective leadership in our schools, beginning with effective school boards. The primary agenda of effective school boards is raising student achievement performance levels and engaging the school district community to attain that goal. These instructive analyses of effective school board leadership build on the research and wisdom of great leaders. Simultaneously, it develops a breath of fresh air for school reformers who seek to implement a new

model and escape the insanity and pathology inherent in school board dysfunctions and violations of our civil and human rights which prevents progress in Chicago's south suburban communities of color. In both highs and lows of awesome moments as educational reform leaders and school board members we are in a strategic leadership position to help school boards carry out their essential responsibilities for creating equity and excellence in public education. In doing so, highly effective school leaders can team with our school board leaders to lead our school district communities in preparing all students to succeed in a rapidly changing global society. School board members doing the same things over and over again and then expecting different results in academic outcomes is the definition for insanity. Education is freedom. In an era of mass educational apartheid with its consequent mass incarceration of blacks that has surpassed the enforced chattel bondage of slavery's peak numbers in 1860, this book addresses a subject that is critically essential, timely, and in need of immediate attention for the security, success, and ultimate survival of black America. As the problems of the academic underachievement gap is addressed in this book, it is also essential that school boards, educators, and community and national leaders accept reality to view the problem in its true perspective, to contemplate it as it is, in providing essential solutions toward removing limiting and limited school boards' dysfunctions, obstructions, and other barriers to academic achievement in effective school board leadership. Supporting educational excellence will thereby produce more African American scholars in mathematics, science, and in many other disciplines. This book will provide information and focus on some key action areas that successful school boards in America and around the world have focused their attention on: Vision, Standards, Assessment, Resource Alignment, Climate, Collaboration, and Continuous Academic Improvement. *Resources in Education*, 1990. Serves as an index to Eric reports, microform. **The School World**, 1911. *Bulletin*, 1959.
