Van Horn,Josanne van Dongen,Yvonne H. A. Bouman,Märta Wallinius ,Patrice Renaud,2024-10-23 New trends in research assessment and treatment are currently visible in the forensic field in three relatively separate areas the use of neuropsychology biomarkers and wearables and VR technology in forensic mental health These areas individually can make a valuable contribution to improving forensic assessments and treatment but combined they might even have a greater impact For example heart rate variability a biomarker can be visualized during Virtual Reality VR scenarios to increase patients insights into their physiological responses With our topic New Directions in Forensic Psychology Applying Neuropsychology Biomarkers and Technology in Assessment and Intervention we hope to offer more insight into the state of scientific developments in the aforementioned areas as they relate to forensic psychology As a result we hope to be able to pinpoint lacking knowledge and offer suggestions for further research      *Information Technology and Traditional Legal Concepts* Richard Jones,Roksana Moore,2013-10-18 Information technology has served to revolutionise the use exchange and protection of information The growth of the internet the convergence of technologies as well as the development of user generated and social networking sites has meant that significant amounts of person data as well as copyrighted materials are now readily accessible Within this changing cultural landscape the legal concepts of privacy data protection intellectual property and criminality have necessarily had to develop and adapt In this volume a number of international scholars consider this process and whether it has merely been a question of the law adapting to technology or whether technology has been forced to adapt to law

Technologies have wrought a culture shift it is therefore apposite to ask whether legal concepts as reflections of culture should also change It is in this volume where papers on privacy data protection intellectual protection and cyber crime begin address this question This book was published as a special issue of International review of Law Computers and Technology
