How to Improve Quality and Reduce Costs
In comparing the overall and other work garments of today with similar apparel of the past it is obvious that the demands of the American workman for quality fit and attractiveness have been largely fulfilled The men on the farms in the engine cabs in the shops and engaged in building construction are now wearing the product of efficiently conducted factories where every conceivable means known is employed to turn out garments that satisfy That the sewing machine deserves credit for a good portion of this goes without saying but it is generally conceded that Union Special machines revolutionized the overall industry by doing away with the old bundle system This enables each operator to remain continuously on one operation resulting in greater and better production The use of Union Special sewing machines has increased rapidly and many machines that were designed to meet special operations have finally become perfected and standardized until today a list of sewing machines stands ready to fill the overall manufacturer's every want for seams of strength and elasticity In Union Special machines the thread goes into the seam with all its strength and luster unimpaired No chafing of the thread by passing many times through the eye of the needle before being finally drawn into the goods as is the case with all shuttle stitch machines Users of Union Special machines realize their characteristic high speed and many other points in their favor set forth in this booklet It is our intention to give a reliable treatise on the proper method to manufacture overalls and allied garments giving the best
