Kzn September Life Sciences Memo:

A Scientific Bibliography of the Drakensberg, Maloti and Adjacent Lowlands Rodney Moffett, 2021-04-19 This bibliography includes scientific articles on the Drakensberg Maloti and Adjacent Lowlands published between 1808 and 2019. Although focussing on material appearing in accredited journals, there is such a wealth of information in the form of unpublished yet traceable reports, documents, presentations and dissertations; these are also included. The bibliography has two parts: a complete list arranged alphabetically and the same references arranged in 33 different disciplines. These range from Palaeobotany with 17 entries to Rock Art with 502 entries.

Multidisciplinary Perspectives on Zimbabwe's Liberation Struggle Munyaradzi Nyakudya, Wesley Mwatwara, Joseph Mujere, 2022-11-15 This book provides a timely reconceptualization of Zimbabwe's anti-colonial liberation struggle, resisting simple binaries in favour of more nuanced critical analysis. Most historiographies characterize Zimbabwe's liberation struggle as being defined by simple bifurcations along racial, ethnic, class and ideological perspectives. This book argues that the nationalist struggle is far more complex than such simple configurations would suggest, and that many actors have been overlooked in the analysis. The book broadens our understanding by analysing the roles of a wide range of political figures, organizations and members of the military, as well as the media and the often overlooked part that women played. Over the course of the book, the contributors also reflect on the ways in which revolutionary figures have been repainted as sellouts, in particular by the ZANU PF ruling party, and what that means for the country's interpretation of their recent past. Highlighting, in particular, the expertise of leading scholars from within Zimbabwe across a range of disciplines, this book will be of interest to researchers of African history, politics and postcolonial studies.
