Lusaka Bursary Application Form 2014:

Faculty Perspectives on Vocational Training in South Africa Eunice Ivala, Chaunda Scott, 2019-03-06 The Cape Peninsula University of Technology CPUT is one of four Universities of Technology established by the South African government in 2005 with a focus on vocational training This book presents faculty experiences of CPUT's innovative work integrated learning and teaching model as well as findings from practice based research being done in the institution The purpose of this volume is to be a resource for other institutions in South Africa that wish to try similar strategies as well as a to trigger a community of practice with vocationally oriented institutions outside of South Africa **Education in a New South Africa** Robert J. Balfour, 2015-09-24 A collaborative series with the University of Cambridge Faculty of Education highlighting leading edge research across Teacher Education International Education Reform and Language Education **South African Schooling: The Enigma of Inequality** Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people's future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis

Where Am I in the Picture? Claudia Mitchell, Katarina Giritli-Nygren, Relebohile Molestone, 2023-12-18 Positionality and researcher reflexivity how to account for one's subject position remain as challenges for new researchers But they also remain as challenges for experienced researchers who are often involved in multiple research projects simultaneously Where Am I in the Picture sheds light on the idea of researcher positionality through visual methodologies particularly in the context of studying rurality in Canada Sweden and South Africa The book is intended for new and experienced researchers seeking to decolonize their own perspectives in research in the social sciences and humanities It incorporates photographs drawings and memory work to highlight the social constructedness of what counts as rural Drawing together compelling narratives from researchers about their positionality in studying rurality the book highlights a need for greater attention to where we are in the picture more broadly It suggests that when it comes to the rural researchers need to rethink the interplay of dominant images insider and outsider perspectives and what this interplay

means in relation to interpretation Where Am I in the Picture presents a new vision of how to take into consideration positionality in research
