The American Educational Catalog, 1922 Wars of Words Tony Crowley, 2005-04-14 Wars of Words is the first comprehensive survey of the politics of language in Ireland during the colonial and post colonial periods Challenging received notions Tony Crowley presents a complex fascinating and often surprising history which has suffered greatly in the past from over simplification Beginning with Henry VIII's Act for English Order Habit and Language 1537 and ending with the Republic of Ireland's Official Languages Act 2003 and the introduction of language rights under the legislation proposed by the Northern Ireland Human Rights Commission 2004 this clear and accessible narrative follows the continuities and discontinuities of Irish history over the past five hundred years The major issues that have both united and divided Ireland are considered with regard to language including ethnicity cultural identity religion sovereignty propriety purity memory and authenticity But rather than simply presenting the accepted wisdom on many of the language debates this book revisits the material and considers previously little known evidence in order to offer new insights and to contest earlier accounts The materials range from colonial state papers to the writings of Irish revolutionaries from the work of Irish priest historians to contemporary loyalist politicians from Gaelic dictionaries to Ulster Scots poetry Wars of Words offers a reading of the crucial role language has played in Ireland's political history It concludes by arguing that the Belfast Agreement's recognition that languages are part of the cultural wealth of the island of Ireland will be central to the social development of the Republic and Northern Ireland The final chapter analyses the way in which contemporary poets have used Gaelic Hiberno English Ulster
