Karl Marx and Friedrich Engels (RLE Marxism) Cecil L. Eubanks,2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels *Marxism, Religion and Ideology* David

Bates,Iain MacKenzie,Sean Sayers,2015-10-05 As austerity measures are put into place the world over and global restructuring is acknowledged by all as an attempt to bolster the economic system that lead to the crash there is a great need to come to grips with the economic political and philosophical legacy of Marx Of particular interest are Marx s analyses of alienation and the cycles of boom and bust thought to be integral to the functioning of capitalism Moreover as the Cold War drifts into the history books it is possible to reconsider the lasting impact of Marx s analyses without the shadows cast by the Soviet version of communism Equally though scholars are increasingly turning to Marx for insight into the rise of religion and the corresponding demise of political ideologies that seems to mark the contemporary age Are we witnessing the return of Marx Few scholars have done as much to tease out the intricacies of Marx ideology and religion and their overlapping concerns as the eminent writer and Marx biographer Professor David McLellan This book brings together a group of internationally renowned academics to reflect upon develop and criticise McLellan s analyses of these three themes with a view to contributing more broadly to scholarly debates in these fields This exciting and timely analysis will be of interest to scholars of political theory the history of political thought including historical methodology Marx and Marxism sociology of knowledge particularly in relation to discussions of ideology religion and theology more widely **Essential Essays, Volume 2** Stuart Hall,2018-12-06 From his arrival in Britain in the 1950s and involvement in the New Left to founding the field of cultural studies and examining race and identity in the 1990s and early 2000s Stuart Hall has been central to shaping many of the cultural and political debates of our time Essential Essays a landmark two volume set brings together Stuart Hall s most influential and foundational works Spanning the whole of his career these volumes reflect the breadth and depth of his intellectual and political projects while demonstrating their continued vitality and importance Volume 2 Identity and Diaspora draws from Hall s later essays in which he investigated questions of colonialism empire and race It opens with Gramsci s Relevance for the Study of Race and Ethnicity which frames the volume and finds Hall rethinking received notions of racial essentialism In addition to essays on multiculturalism and globalization black popular culture and Western modernity s racial underpinnings Volume 2 contains three interviews with Hall in which he reflects on his life to theorize his identity as a colonial and diasporic subject Adrienne Rich s Later Poetry Alec Marsh,2024-12-12 Reorienting understandings of Adrienne Rich s later work through her interest in Marx and Marxist politics this book engages with this overlooked part of her oeuvre through considerations of issues such as race nationhood and gender From 1983 onward after she visited revolutionary Nicaragua until the end of her life Rich s political vision can best be described as Marxist Humanist Until recently very little attention has been paid to Rich s interest in Marx there is no in depth treatment of the effect of Marx s humanistic philosophy on Rich s later work or even on her unwavering but altered dedication to Women s Liberation This book fills this gap showing how Rich s discovery of Marx s humanism affected her poetry In doing so it makes a significant intervention into debates about the direction of American poetics and argues powerfully for a greater consciousness of

political engagement through poetry **Karl Marx** Karl Marx, 2000 This edition of McLellan's comprehensive selection of Marx's writings includes carefully selected extracts from the whole range of Marx's most important pieces alongside a fully revised and updated bibliography and editorial commentary on each document New editorial introductions to each section of the book provide the reader with the background and context of Marx's writing in each period Essential reading for anyone wishing for a detailed overview of Marx's political philosophy *Essays on Marxism and Asia* Murzban Jal, 2021-11-24 *Essays on Marxism and Asia* begins with the largely forgotten prophet of ancient Iran Zarathushtra remembered and immortalised by Friedrich Nietzsche's *Also Sprach Zarathustra* In contrast to the infamous clash of civilisation thesis this book argues for a humanist theory of civilisations and studies the Parsis or Persians who left Iran to settle in India and make it their home It claims that Parsis despite being a migrant community took strength from their Persian heritage and civilisation and rose to become the architects of industrial modernity in India This book locates this humanist theory in the larger genre of the Asiatic mode of production with caste as its sub text It then takes a phenomenological reading of caste in India and says that India is afflicted by a very strange illness called silent blindness where humanity is silenced and blinded in front of the caste apparatus It then analyzes how capitalism and modernity fashioned caste in the image of capitalism and how the Indian right wing imagined its fascistic politics of race and racial superiority based on the image of caste hierarchy The problem in India has been that the liberals could not take caste seriously so as to confront it and then annihilate this violent apartheid structure This the book argues has led to the rise of fascism in India The book concludes with positing two different strands of secularism namely liberal or bourgeois secularism which merely separates religion and the state but mixes these when required and revolutionary secularism which humanises religion and politics first in order to find the human and class content in both The chapters in this book were originally published in *Critique Journal of Socialist Theory* **Creating a Socialist Yugoslavia** Hilde Katrine Haug, 2012-03-30 When the Yugoslav communists came into power in 1945 they claimed to have introduced a socialist solution to the Yugoslav national question But what did this claim imply *Creating a Socialist Yugoslavia* Tito Communist Leadership and the National Question charts the approach pursued by Yugoslav communist leaders from their endorsement in 1935 of a strategy committing to the search for a socialist solution to the national question within a multinational Yugoslav context until the party disintegrated in 1990 Hilde Katrine Haug examines the impact of the communist leadership's aspirations to create a socialist Yugoslavia on their management of national conflict in the highly heterogeneous Yugoslav state entity
