

An aerial photograph of a massive crowd of people gathered in a city square or park. In the background, a city skyline with several tall buildings is visible under a clear sky. The crowd is dense, and many individuals are holding up white rectangular signs or placards, some of which are clearly visible in the foreground. The overall scene suggests a large-scale public demonstration or protest.

Merton, with the Assistance of Marjorie Fiske and Alberta Curtis** Robert King Merton, Alberta CURTIS, Marjorie FISKE, 1946 **Mass Persuasion** Robert King Merton, 1971 Hollywood and War, The Film Reader J. David Slocum, 2023-04-28 Discussing such classic films as Sergeant York Air Force and All Quiet on the Western Front as well as more modern blockbusters like Apocalypse Now and Saving Private Ryan this outstanding volume focuses on Hollywood and its production of war films Topics covered include the early formation of war cinema the apotheosis of the Hollywood war film the ascendancy of ambivalence Hollywood and the war since Vietnam war as a way of seeing For any student of film studies or American cultural studies this is a valuable companion **Reintroducing Robert K. Merton** Charles Crothers, 2020-12-30 This book reintroduces the work of Robert K Merton as a bridge between classical sociology and modern sociology Founded in the sociological classics but developing a modern approach to the advancement of theory and research methodology Merton's thought helped to construct modern sociology in its coverage of many of the social institutional areas of contemporary society Recovering and analysing the system of structural analysis which Merton progressively developed a system largely overlooked due to the tendency among commentators to stereotype him as a functionalist the author considers the applications of this approach to various substantive fields particularly science and criminal justice and examines the effect of Merton's later sociological semantics on his overall schema A clear and accessible presentation of the array of concepts introduced by Merton to sociology Reintroducing Robert K Merton will appeal to scholars and students with interests in sociological theory social research the history of sociology and the various substantive areas covered in the work of Merton deviance science and communications **The SAGE Handbook of Media Processes and Effects** Robin L. Nabi, Mary Beth Oliver, 2009-09-11 The study of media processes and effects is one of the most central to the discipline of communication and encompasses a vast array of theoretical perspectives methodological tools and applications to important social contexts In light of this importance as well as the rapid changes in the media environment that have occurred during the past 20 years this Handbook explores where media effects research has been over the past several decades and equally important contemplates where it should go in the years ahead **COVERAGE** Part I offers an overview of the field and conceptualizations of media effects along with a range of quantitative and qualitative methodologies used in the study of media effects Part II focuses on prominent theoretical approaches to the study of media effects from a more societal perspective tracing their historical contexts theoretical developments criticisms and controversies and the impact of the new media environment on current and future research Part III emphasizes the various factors that influence the critical functions of message selection and processing central to a host of mass media application contexts Part IV

reflects a dominant trend in the media effects literature that of persuasion and learning and traces related theoretical perspectives through the various contexts in which media may have such effects Part V explores the contexts and audiences that have been traditional foci of media effects research such as children violence body image and race addressing the theories most applicable to those contexts Part VI highlights a concern central and unique to the communication discipline message medium and how it influences effects ranging from what messages are attended to how we spend our time and even how we think *Robert K. Merton* Craig Calhoun,2010-09-14 Includes bibliographical references p and index **The History of Media and Communication Research** David W. Park,Jefferson Pooley,2008 Strictly speaking James Carey wrote there is no history of mass communication research This volume is a long overdue response to Carey s comment about the field s ignorance of its own past The collection includes essays of historiographical self scrutiny as well as new histories that trace the field s institutional evolution and cross pollination with other academic disciplines The volume treats the remembered past of mass communication research as crucial terrain where boundaries are marked off and futures plotted The collection intended for scholars and advanced graduate students is an essential compass for the field *Hollywood: Social dimensions: technology, regulation and the audience* Thomas Schatz,2004 Hollywood as a concept applies variously to a particular film style a factory based mode of film production a cartel of powerful media institutions and a national and increasingly global way of seeing It is a complex social cultural and industrial phenomenon and is arguably the single most important site of cultural production over the past century This collection brings together journal articles published essays book chapters and excerpts which explore Hollywood as a social economic industrial aesthetic and political force and as a complex historical entity Crime and Media Chris Greer,2019-07-08 This engaging and timely collection gathers together for the first time key and classic readings in the ever expanding area of crime and media Comprizing a carefully distilled selection of the most important contributions to the field Crime and Media A Reader tackles a wide range of issues including understanding media researching media crime newsworthiness and news crime entertainment and creativity effects influence and moral panic and cybercrime surveillance and risk Specially devized introductory and linking sections contextualize each reading and evaluate its contribution to the field both individually and in relation to competing approaches and debates This book provides a single source around which criminology media and cultural studies modules can be structured an invaluable revision and consultation guide for students and an extremely useful resource for scholars writing and researching across a wide range of relevant fields Accessible yet challenging and packed with additional pedagogical devices Crime and Media A Reader will be an invaluable resource for students and academics studying crime media culture surveillance and control *The Search for a Method* David E. Morrison,1998 Morrison argues that focus groups are overused and cannot deliver what is often claimed The study compares the organisation of knowledge within a university setting and in market research **Propaganda and American Democracy** Nancy Snow,2014-03-10 Propaganda

has become an inescapable part of modern American society On a daily basis news outlets politicians and the entertainment industry with motives both dubious and well intentioned launch propagandistic appeals In *Propaganda and American Democracy* eight writers explore various aspects of modern propaganda and its impact Contributors include leading scholars in the field of propaganda studies Anthony Pratkanis tackles the thorny issue of the inherent morality of propaganda J Michael Sproule explores the extent to which propaganda permeates the U S news media and Randal Marlin charts the methods used to identify research and reform the use of propaganda in the public sphere Other chapters incorporate a strong historical component Mordecai Lee deftly analyzes the role of wartime propaganda while Dan Kuehl provides an astute commentary on former and current practices and Garth S Jowett investigates how Hollywood has been used as a vehicle for propaganda In a more personal vein Asra Q Nomani recounts her journalistic role in the highly calculated and tragic example of the ultimate act of anti American propaganda perpetrated by al Qaeda and carried out against her former colleague Wall Street Journal reporter Daniel Pearl *Propaganda and American Democracy* offers an in depth examination and demonstration of the pervasiveness of propaganda providing citizens with the knowledge needed to mediate its effect on their lives Edited by Nancy Snow **Introduction to the Social Sciences (RLE Social Theory)** Maurice

Duverger, 2020-09-10 Professor Duverger at last provides the student with an overall view of the methodology of the social sciences He briefly traces the origin of the notion of a social science showing how it emerged from social philosophy Its essential elements and pre conditions are described the splintering of social science into specialist disciplines is explained and the need for a general sociology confirmed The techniques of observation used by social scientists are dealt with in some detail and the unity of the social sciences is illustrated by examples of the universal application of these techniques Documentary evidence in its various forms are described along with the basic analytical techniques including quantitative methods and content analysis Other methods of gathering information through polls interviews attitude scales and participant observation are all described Professor Duverger brings together the different kinds of analysis used to assess the information thus gathered Arguing that observing and theorizing are not two different stages or levels of research he examines the practical value and difficulties of general sociological theories partial theories and models and working hypotheses He both describes and assesses the limitations of experiment and the scope of comparative methods in the social sciences He then gives elementary instructions for using and assessing the value of mathematical techniques The possibilities of presenting social phenomena through graphs and charts are also explored There are useful book lists and diagrams *American Culture, American Tastes* Michael Kammen, 2012-10-03 Americans have a long history of public arguments about taste the uses of leisure and what is culturally appropriate in a democracy that has a strong work ethic Michael Kammen surveys these debates as well as our changing taste preferences especially in the past century and the shifting perceptions that have accompanied them Professor Kammen shows how the post traditional popular culture that

flourished after the 1880s became full blown mass culture after World War II in an era of unprecedented affluence and travel He charts the influence of advertising and opinion polling the development of standardized products shopping centers and mass marketing the separation of youth and adult culture the gradual repudiation of the genteel tradition and the commercialization of organized entertainment He stresses the significance of television in the shaping of mass culture and of consumerism in its reconfiguration over the past two decades Focusing on our own time Kammen discusses the use of the fluid nature of cultural taste to enlarge audiences and increase revenues and reveals how the public role of intellectuals and cultural critics has declined as the power of corporate sponsors and promoters has risen As a result of this diminution of cultural authority he says definitive pronouncements have been replaced by divergent points of view and there is as well a tendency to blur fact and fiction reality and illusion An important commentary on the often conflicting ways Americans have understood defined and talked about their changing culture in the twentieth century

The Beginnings of Communication Study in America Wilbur Schramm, 1997-02-12 Considered by most to be the founder of the field of communication studies Wilbur Schramm could not be more qualified to write *The Beginnings of Communication Study in America* This momentous new work acknowledges the seminal contributions of four inspirational scientists whose theories and methods were the foundation for the discipline called communication Harold D Lasswell Paul F Lazarsfeld Kurt Lewin and Carl I Hovland This final collection of Wilbur Schramm s perspective in its unfinished form contains many of his personal insights on the field of communication The editors have supplemented this volume posthumously by providing a chapter that completes the story of how communication study spread among U S Universities and also contains an exceptional account of the story of Schramm himself as the founder of communication and the widespread agreement on his preeminence *The Beginnings of Communication Study in America* will fulfill a great need for students and researchers in mass communication communication theory and speech who are interested on the origins and history of communication study and the significance of Wilbur Schramm s work Publisher description

Rethinking Public Relations Kevin Moloney, 2006-04-18 All PR whether for charities or arms manufacturers is weak propaganda Though it has its undeniable benefits it grabs attention and helps circulate more information it also has costs such as selective messaging This extensively revised edition of a classic text fully investigates PR updating and expanding earlier arguments and building upon the successful first edition with new thoughts data and evidence Thought provoking and stimulating *Rethinking Public Relations* 2nd Edition challenges conventional PR wisdom It develops the accepted thinking on the most important question facing PR its relationship with democracy and finds a balance of advantages and disadvantages which leave a residue of concern It tackles topical issues such as PR as a form of propaganda which flourishes in a democracy the connections between PR and journalism the media promotions culture and persuasion Designed to appeal to final year undergraduates postgraduates and researchers studying public relations media and communications studies this book explores the most important relationship PR has the connection with democracy and

Change in Societal Institutions J.

Glass, Maureen T. Hallinan, D. Klein, 2013-11-11 In the second half of the twentieth century a number of researchers have conceptualized modern society as a social system composed of differentiated yet interrelated institutional spheres. Commonly identified institutional spheres are the family, religion, the economy, the polity or state, medicine or health care, religion, law, and education. The institutional perspective has sometimes been linked to a structural functional framework; it has often been asserted that institutions must be understood as parts of a larger whole operating at the societal level. Equally important have been recent institutional theory and research focusing on the more microscopic dynamics of intrainstitutional change. The concern here has been processes governing the institutionalization of rules and practices and the formation and decline of particular social structures. Although valid and useful, neither of these perspectives has yielded a systematic comparative assessment of societal institutions. The aim of this edited volume is to meet this critical need. It brings together recent theoretical and empirical research on societal institutions in a time of rapid change. The chapters focus on how these institutions adapt to societal change and what the outcomes of these changes are.
