A school consists of 740 students divided into 5 grade levels. The numbers of students in each grade are shown in the table below.

Grade	8	9	10	11	12
Number of students	120	125	119	195	181

The Principal of the school wishes to select a sample of 25 students. She wishes to ensure that, as closely as possible, the proportion of the students from each grade in the sample is the same as the proportions in the school.

- (a) Calculate the number of grade 12 students who should be in the sample. [3]

The Principal selects the students for the sample by asking those who took part in a previous survey if they would like to take part in another. She takes the first of those who reply positively, up to the maximum needed for the sample.

- (b) State which two of the sampling methods listed below best describe the method used. [2]

Stratified Quota Convenience Systematic Simple random

Cumulated Index Medicus, 1998 *Saturday Review*, 1865 *Design of Sampling Plan for Exponential Distribution Under Neutrosophic Statistical Interval Method* Muhammad Aslam, The sampling plan using the classical statistics under the exponential distribution can be applied only when there are certainty and clearness and in observations and parameters But in practice it is not necessary that under some circumstances all the observations parameters are determined So we cannot analyze them using the classical statistics which provides results in the determined values The neutrosophic statistics which is the generation of classical statistics can be applied to the analysis when parameters observations are incomplete indeterminate and vague imprecise In this paper we will design originally a sampling plan for the exponential distribution under the neutrosophic interval statistical method The neutrosophic plan parameters of the

proposed plan will be determined through the neutrosophic non linear problem The tables for various values of risk are presented for the use in the industrial An example from the automobiles manufacturing industry is given to explain for the exponential distribution under the neutrosophic interval statistical method **Mathematics Standard Level ,2007**
