Wright, 2016-12-14 Research indicates that aural skills are vital in developing musical expertise yet the precise nature of those skills and the emphasis placed upon them in educational contexts merit closer attention and exploration This book assesses the relevance of aural in a university music degree and as a preparation for the professional career of a classical musician By way of the discussion of four empirical studies two main areas are investigated firstly the relationship between university music students aural ability and their overall success on a music degree programme and secondly the views of music students and professional musicians about aural and its relevance to their career are analysed The subject is investigated particularly in the light of the current socio educational background of the past fifty years which has greatly influenced the participation of music and the study and development of musicianship Many related issues are touched upon as part of the research for this project and these emerge as relevant topics in the discussion of aural Apart from students and musicians views on training and singing aspects considered include the role of improvisation memorisation and notation examinations absolute pitch and the affinity with language all of which have a part to play in the debate about the importance of aural *MENC Handbook of Research Methodologies* Richard Colwell, 2006-02-23 Combining key selections from the classic MENC Handbook of Research on Music Teaching and Learning Schirmer 1992 and the widely acclaimed New Handbook of Research on Music Teaching and Learning Oxford 2002 the MENC Handbook of Research Methodologies presents comprehensive coverage of the most important issues in music education research in a handy and accessible format A distinguished team of internationally recognized experts offers cogent and concise insights that provide readers with up to date information and references The volume covers the most important topics in this field including the role of research in music education philosophical historical qualitative and quantitative research as well as assessment and its relationship to research Practical and affordable this volume will prove essential for students and scholars of music education It is both an excellent starting point for those looking to gain an orientation to the field and an up to date reference guide to the most effective strategies for experienced researchers instructors and pedagogues *The Oxford Handbook of Assessment Policy and Practice in Music Education, Volume 2* Timothy Brophy, 2019-01-02 In the music classroom instructors who hope to receive aid are required to provide data on their classroom programs Due to the lack of reliable valid large scale assessments of student achievement in music however music educators in schools that accept funds face a considerable challenge in finding a way to measure student learning in their classrooms From Australia to Taiwan to the Netherlands music teachers experience similar struggles in the quest for a definitive assessment resource that can be used by both music educators and researchers In this two volume Handbook contributors from across the globe come together to provide an authority on the assessment measurement and evaluation of student learning in music The Handbook's first volume emphasizes international

and theoretical perspectives on music education assessment in the major world regions This volume also looks at technical aspects of measurement in music and outlines situations where theoretical foundations can be applied to the development of tests in music The Handbook's second volume offers a series of practical and US focused approaches to music education assessment Chapters address assessment in different types of US classrooms how to assess specific skills or requirements and how assessment can be used in tertiary and music teacher education classrooms Together both volumes of The Oxford Handbook of Assessment in Music Education pave the way forward for music educators and researchers in the field

**International symposium on performance science 2021** Aaron Williamon, Isabelle Cossette, Krzysztof Paweł Dąbrowski, Solange Glasser, Isabelle Héroux, Fabrice Marandola, Laura A. Stambaugh, 2023-04-18 *Between Self-Determination and Heteronomy* Timea Sari, 2025-05-26 In the past fifty years Oman has undergone significant political economic and social transformations with music playing a key role in the country's cultural development The establishment of institutions promoting music education and public musical participation has resulted in a thriving musical scene Yet despite this governmental support music remains a controversial subject within Omani society shaped by traditional Islamic values and prevailing socio cultural norms This study investigates the motivations of Omani music students exploring their reasons for pursuing a degree in music and their attitudes towards musical learning and practice Grounded in Self Determination Theory the research reveals that while students initial decisions to study music were often influenced by extrinsic factors their engagement with musical learning was characterised by more autonomous forms of motivation By highlighting the complex and dynamic interplay between personal interests socio economic conditions familial influences and institutional environments this study offers a nuanced context sensitive account of musical motivation in Oman contributing to broader discussions on music education identity and motivation in non Western settings

**Musik-Lernen: Dimensionierung eines Grundbegriffes der Musikpädagogik** Benjamin Eibach, 2018 Eine allgemein anerkannte Definition des Begriffes Musik Lernen existiert in der Musikpädagogik nicht Doch nur auf Grundlage präziser Begriffsbestimmungen lassen sich innerhalb der Forschung nachvollziehbare Aussagen zum Musik Lernen treffen Mit der Dimensionierung wird ein Verfahren entwickelt und erprobt um Verwendungszusammenhänge historische Genese und Merkmale des Begriffes Musik Lernen herauszuarbeiten Auf diese Weise wird eine Basis für die Entwicklung kontextspezifischer Begriffsbestimmungen geschaffen und ein Beitrag zur musikpädagogischen Grundlagenforschung geleistet
