N2 Fitting And Machine Theory:

Principles and Theory for Data Mining and Machine Learning Bertrand Clarke, Ernest Fokoue, Hao Helen Zhang, 2009-07-21 The idea for this book came from the time the authors spent at the Statistics and Applied Mathematical Sciences Institute SAMSI in Research Triangle Park in North Carolina starting in fall 2003 The first author was there for a total of two years the first year as a Duke SAMSI Research Fellow The second author was there for a year as a Post Doctoral Scholar The third author has the great fortune to be in RTP permanently SAMSI was and remains an incredibly rich intellectual environment with a general atmosphere of free wheeling inquiry that cuts across established fields SAMSI encourages creativity It is the kind of place where researchers can be found at work in the small hours of the morning computing interpreting computations and developing methodology Visiting SAMSI is a unique and wonderful experience The people most responsible for making SAMSI the great success it is include Jim Berger Alan Karr and Steve Marron We would also like to express our gratitude to Dalene Stangl and all the others from Duke UNC Chapel Hill and NC State as well as to the visitors short and long term who were involved in the SAMSI programs It was a magical time we remember with ongoing appreciation
