Skinns,2016-07-12 This book shows how the overall impact of the penal policy agenda of the Coalition Government 2010
2015 has not led to the intended rehabilitation revolution but austerity outsourcing and punishment designated here as
punitive managerialism divThe policy of austerity has led to significant budget cuts in legal aid and court services which
threaten justice It has also led to staffing reductions and overcrowding in the prison system which threaten order and have
undermined more positive work with prisoners The outsourcing of prison and community based offender services is based on
untried method with uncertain results The shift in orientation towards punishment is regrettable because it is essentially
negative The book notes that this move to punitive managerialism is located in the broader trend towards neo liberalism It
concludes by attempting to articulate the parameters of an affordable and emotionally satisfying yet humane and rational
