Forum Manual 2010:

Cybercrime Through an Interdisciplinary Lens Thomas Holt, 2016-12-08 Research on cybercrime has been largely bifurcated with social science and computer science researchers working with different research agendas. These fields have produced parallel scholarship to understand cybercrime offending and victimization as well as techniques to harden systems from compromise and understand the tools used by cybercriminals. The literature developed from these two fields is diverse and informative but until now there has been minimal interdisciplinary scholarship combining their insights in order to create a more informed and robust body of knowledge. This book offers an interdisciplinary approach to research on cybercrime and lays out frameworks for collaboration between the fields. Bringing together international experts, this book explores a range of issues from malicious software and hacking to victimization and fraud. This work also provides direction for policy changes to both cybersecurity and criminal justice practice based on the enhanced understanding of cybercrime that can be derived from integrated research from both the technical and social sciences. The authors demonstrate the breadth of contemporary scholarship as well as identifying key questions that could be addressed in the future or unique methods that could benefit the wider research community. This edited collection will be key reading for academics, researchers, and practitioners in both computer security and law enforcement. This book is also a comprehensive resource for postgraduate and advanced undergraduate students undertaking courses in social and technical studies.

Small Animal Internal Medicine for Veterinary Technicians and Nurses Linda Merrill, 2012-06-12 Small Animal Internal Medicine for Veterinary Technicians and Nurses is the first comprehensive resource on internal medicine written for the veterinary technician. Organized by body system, each chapter discusses pertinent diseases from clinical signs, diagnostic testing, and prevalence to treatment options and nursing considerations. Published in association with the Academy of Internal Medicine for Veterinary Technicians, this book offers both a thorough grounding in the foundations of internal medicine for students and new veterinary technicians and detailed advanced information suitable for experienced veterinary technicians. Coverage includes an overview of neurological disorders and discussion of the surgical emergency and nursing considerations for each condition. This complete reference, which includes a companion website with quizzes, images, and video clips, is essential reading for veterinary technician students, practicing technicians, and those studying for the AIMVT specialty exam.

Religion, Culture & Society Andrew Singleton, 2014-03-10 The reader is taken on a global exploration of the forms and diversities of religions and their social and cultural contexts. It is up to the minute in research and theory and comfortably grounded in the traditions of the social explanation of things religious and spiritual. Gary Bouma, AM Monash University, tells how sociology of religion originated in the work of key nineteenth and twentieth century theorists and then brings the story into the present era of globalization, hybrid spirituality, and the Internet. Students of religion will find this an engaging and informative survey of the field. Robert Wuthnow, Princeton University, considers the big questions: What is religion? How is

religion changing in a modern world What is the future of religion and addresses them through tangible case studies and observations of contemporary life Its global perspective reflects the breadth diversity and vibrancy of this field Sylvia Collins Mayo Kingston University This is a rich and dynamic introduction to the varieties of religious life and the central issues in the sociology of religion today It leads the reader through the key ideas and main debates within the field as well as offering in depth descriptions and analysis of topics such as secularization fundamentalism Pentecostal Christianity Buddhism Hinduism Islam atheism The spiritual marketplace digital religion and new religions like Wicca Emphasising religion as a global phenomenon examining especially the ways in which globalization has had an impact on everyday religious life Singleton has created an illuminating text suitable for students in a wide range of courses looking at religion as a social and cultural phenomenon
