Internationalizing Rural Science Teacher Preparation Gayle A. Buck, Vesna Dimitrieska, Valarie L. Akerson, 2023-11-23

This edited volume discusses the need to increase quantity and enhance quality of science education focused on preparing rural students to thrive in an interconnected interdependent and complex world It acknowledges that globally integrated education incorporates local knowledge and culture with global trends Additionally it highlights globally competent science teaching is not included in most preparation programs and teachers enter schools unprepared to address students needs

Rural schools lack opportunities to keep up with reform efforts and may have limited experiences with diversity particularly at the global level These chapters describe globalization in authors respective academic institutions by sharing global competence action research projects for preservice teachers The studies presented were conducted in elementary and secondary science methods and science content courses The book s research is unique as the contributors have carried out

action research in science teacher preparation programs and participated in peer discussions that helped them fill gaps in global science teaching while advancing the field of teacher preparation programs      Teaching Children Science Joseph

Abruscato, 2001 This truncated paperback volume is composed of strategies and techniques for teaching science derived from the fifth edition of Joseph Abruscato s successful text Teaching Children Science A Discovery Approach The first nine

chapters of Teaching Children Science are included in this new title to provide students with a discovery approach to promote the teaching of the concepts skills and attitudes of science in the classroom These nine basic science teaching

methods chapters cover strategies and techniques for teachers to incorporate cooperative learning questioning and active listening in their classrooms The author also covers planning and managing discovery based units assessing students
