## **Fouquet Martyrdom Apollonia History Theatre:**

Jean Fouquet, 'The Martyrdom of St Apollonia', and the History of the Theatre: Iconography and the Limits of Evidence  
Gordon Kipling, Professor of English Literature Gordon Kipling, 2015-10-31 This volume locates Jean Fouquet's Martyrdom of St Apollonia at the very centre of his ambitions and achievements as a painter of manuscripts. It reveals the painter to be above all a consummate textual artist, one who reads, interprets and interacts with the texts he illustrates. In so doing it places the Apollonia image within the devotional context from which it has been abstracted. This volume also discusses the famous contributions of the Apollonia image to the history of the theatre. The painting has been seen primarily as proof that the artist was a man of the theatre and it has been celebrated as a literal portrait, even a photographic snapshot of a medieval theatre in performance. In an examination of these claims, this book critically analyses some of the most widely held but little documented doctrines about medieval theatre practices, doctrines that derive almost exclusively from interpretations of The Martyrdom of St Apollonia.

**A Cultural History of Theatre in the Middle Ages** Jody Enders, 2019-08-08 Historically and broadly defined as the period between the fall of the Roman Empire and the rise of the Renaissance, the Middle Ages encompass a millennium of cultural conflicts and developments. A large body of mystery, passion, miracle and morality plays cohabited with song, dance, farces and other public spectacles, frequently sharing ecclesiastical and secular inspiration. A Cultural History of Theatre in the Middle Ages provides a comprehensive and interdisciplinary overview of the cultural history of theatre between 500 and 1500 and imaginatively pieces together the puzzle of medieval theatre by foregrounding the study of performance. Each of the ten chapters of this richly illustrated volume takes a different theme as its focus: institutional frameworks, social functions, sexuality and gender, the environment of theatre, circulation, interpretations, communities of production, repertoire and genres, technologies of performance and knowledge transmission.

**A Cultural History of Tragedy in the Middle Ages** Jody Enders, Theresa Coletti, John T. Sebastian, Carol Symes, 2021-05-20 For the first time a group of distinguished authors come together to provide an authoritative exploration of the cultural history of tragedy in the Middle Ages. Reports of the so-called death of medieval tragedy, they argue, have been greatly exaggerated and for the Middle Ages the stakes couldn't be higher. Eight essays offer a blueprint for future study as they take up the extensive but much neglected medieval engagement with tragic genres, modes and performances from the vantage points of gender, politics, theology, history, social theory, anthropology, philosophy, economics and media studies. The result: A recuperated medieval tragedy that is as much a branch of literature as it is of theology, politics, law or ethics and which at long last rejoins the millennium-long conversation about one of the world's most enduring art forms. Each chapter takes a different theme as its focus: forms and media, sites of performance and circulation, communities of production and consumption, philosophy and social theory, religion, ritual and myth, politics of city and nation, society and family, and gender and sexuality.

**Medieval Theatre Performance** Philip Butterworth,Katie Normington,2017 The nature conditions and place of medieval theatre performance remain somewhat mysterious with scholarship in the field tending to be devoted to its context and to the texts themselves The essays in this volume seek to address this omission They consider such matters as the nature of performance in theatre dance puppetry automata the performed qualities of such events the conventions of performed work what took place in the act of performing and the relationships between performers and witnesses and what conditioned these relationships

Dothan Dothan Alabama *French Visual Culture and the Making of Medieval Theater* Laura Weigert, 2015-12-30 This book revives what was unique strange and exciting about the variety of performances that took place in the realms of the French kings and Burgundian dukes Laura Weigert brings together a wealth of visual artifacts and practices to explore this tradition of late medieval performance located not in theaters but in churches courts and city streets and squares By stressing the theatricality rather than the realism of fifteenth century visual culture and the spectacular rather than the devotional nature of its effects she offers a new way of thinking about late medieval representation and spectatorship She shows how images that ostensibly document medieval performance instead revise its characteristic features to conform to a playgoing experience that was associated with classical antiquity This retrospective vision of the late medieval performance tradition contributed to its demise in sixteenth century France and promoted assumptions about medieval theater that continue to inform the contemporary disciplines of art and theater history

*Early English Performance: Medieval Plays and Robin Hood Games* John Marshall, 2019-10-08 Covering a period of nearly 400 years work by the author this collection of essays in the Shifting Paradigms in Early English Drama Studies series brings the perspective of a Drama academic and practitioner of early English plays to the understanding of how medieval plays and Robin Hood games of the fifteenth and sixteenth centuries were performed It explores why where when and how the plays happened who took part and who were the audiences The insights are informed by a combination of research and the public presentation of surviving texts The research included in the volume unites the early English experiences of religious and secular performance This recognition challenges the dominant critical distinction of the past between the two and the consequent privileging of biblical and moral plays over secular entertainments What further binds rather than separates the two is that the destination of funds raised by the

**Murder by Accident** Jody Enders, 2009-08-01 Over fifty years ago it became unfashionable even forbidden for students of literature to talk about an author's intentions for a given work In Murder by Accident Jody Enders boldly resurrects the long disgraced concept of intentionality especially as it relates to the theater Drawing on four fascinating medieval events in which a theatrical performance precipitated deadly consequences Enders contends that the marginalization of intention in critical discourse is a mirror for the marginalization and misunderstanding of theater Murder by Accident revisits the legal moral ethical and aesthetic limits of the living arts of the past pairing them with examples from the present whether they be reality television snuff films the accidental live broadcast of a suicide on a Los Angeles freeway or an actor who jokingly fired a stage revolver at his temple causing his eventual death This book will force scholars and students to rethink their assumptions about theory intention and performance both past and present

**Reading in the Wilderness** Jessica Brantley, 2008-09-15 Just as twenty first century technologies like blogs and wikis have transformed the once private act of reading into a public enterprise devotional reading experiences in the Middle Ages were dependent upon an oscillation between the solitary and the communal In Reading in the Wilderness Jessica Brantley uses tools from both literary criticism and art history to illuminate Additional MS 37049 an illustrated Carthusian miscellany housed in the British Library This revealing artifact Brantley argues closes the gap between group spectatorship and private study in late medieval England Drawing on the work of W J T Mitchell Michael Camille and others working at the image text crossroads Reading in the Wilderness addresses the manuscript's texts and illustrations to examine connections between reading and performance within the solitary monk's cell

and also outside Brantley reimagines the medieval codex as a site where the meanings of images and words are performed both publicly and privately in the act of reading

**"Sculpting Simulacra in Medieval Germany, 1250-1380 "** Assaf Pinkus, 2017-07-05 Engaging with the imaginative nonreligious response to Gothic sculpture in German speaking lands and tracing high and late medieval notions of the living statue and the simulacrum in religious lay and travel literature this study explores the subjective and intuitive potential inherent in thirteenth and fourteenth century sculpture It addresses a range of works from the oeuvre of the so called Naumburg Master through Freiburg im Breisgau to the imperial art of Vienna and Prague As living simulacra the sculptures offer themselves to the imaginative horizons of their viewers as factual presences that substitute for the real In perceiving Gothic sculpture as a conscious alternative to the sacred imago the book offers a new understanding of the function production and use of three dimensional images in late medieval Germany By blurring the boundaries between viewers and works of art between the imaginary and the real the sculptures invite the speculations of their viewers and in this way produce an unstable meaning perpetually mutable and alive The book constitutes the first art historical attempt to theorize the idiosyncratic character of German Gothic sculpture much of which has never been fully documented and provides the first English language survey of the historiography of these works

**Memory and Commemoration in Medieval Culture** Dr Elma Brenner, Dr Mary Franklin-Brown, Dr Meredith Cohen, 2013-04-28 In medieval society and culture memory occupied a unique position It was central to intellectual life and the medieval understanding of the human mind Commemoration of the dead was also a fundamental Christian activity Above all the past and the memory of it occupied a central position in medieval thinking from ideas concerning the family unit to those shaping political institutions Focusing on France but incorporating studies from further afield this collection of essays marks an important new contribution to the study of medieval memory and commemoration Arranged thematically each part highlights how memory cannot be studied in isolation but instead intersects with many other areas of medieval scholarship including art history historiography intellectual history and the study of religious culture Key themes in the study of memory are explored such as collective memory the links between memory and identity the fallibility of memory and the linking of memory to the future as an anticipation of what is to come

**Mobile Theater** Fernando Quesada, 2021-07-13 Taking as a starting point a design for a mobile theater made at the Architectural Association of London between 1970 and 1971 by Spanish architect Javier Navarro de Zuñiga born 1942 this book traces the architectural counterculture of that time and the relations with the alternative performing arts Architect Javier Navarro de Zuñiga 1942 graduated in 1968 at Madrid School of Architecture During the academic year 1970-1971 he travelled from Madrid to London thanks to a grant of the British Council to complete his postgraduate training at the Architectural Association There he designed a building called Mobile Theater It was a theatrical device composed of several 8 x 2.5 meters trucks carefully designed which contained all the building elements needed to shape a space for the performing arts or other collective uses The assembly time estimated for

four workers was six and a half hours This project was internationally showed and published between 1971 and 1975 but was never built This book intends to release this project largely ignored by canonical historiography and to culturally place it in time and space the agitated city of London in 1971 After the convulsions of May 1968 architectural counterculture rearmed on very different fronts from the disciplinary rally to the guerilla positions This architectural design accounts for these events since it had a temporal development that goes beyond its mere conception as an artifact The long and frustrated process for construction 1969 to 1976 calls for a particular intra history which this books will tell European Theatre Iconography Christopher B.
