Lowe, 2025-08-18 In this book Robert J Lowe introduces frame analysis a qualitative research approach grounded in the critical theory of the early Frankfurt School and framing in the social sciences Lowe sets out the principles of the frame analysis approach and provides a guide to conducting this kind of research in practice Focused on identifying and challenging ideology through immanent critique Lowe presents a methodological guide and research report He begins by explaining early critical theory and the frame analysis approach followed by a detailed example of its application This example illustrates the key stages identifying participants ideological presuppositions through their master framing questioning the internal logic of this framing and presenting contradictions to participants Finally the researcher observes reactions and documents emerging counter framing marking the first signs of resistance to dominant ideology By applying this approach to issues in English language teaching the book questions some of the ways in which the

rhetoric of pluralism and diversity around English as an international language may stand at odds with the realities of a world in which some varieties of the language have more prestige than others Through the frame analysis approach the author suggests that researchers can play a role in empowering language learners and users to advocate for a world in which they can take true ownership of the language Key reading for all qualitative researchers and advanced students in applied linguistics sociolinguistics ELT TESOL and linguistic anthropology

Leaving Islam, Ex-Muslims and Zemiology Weronika Lenartowicz, 2024-02-28

Cases of ex Muslims in Europe being punished by their former fellow Muslims constitute an unacceptable practice from the standpoint of democratic societies in which human rights are respected and individuals have the freedom to choose their religion or none at all Ex Muslims fear of punishment by their former community should prompt an open candid and

measured discussion of the issue Leaving Islam Ex Muslims and Zemiology presents the reasons for and consequences of consciously leaving Islam based on interviews with 80 ex Muslims currently living in Germany and Sweden In their view many of the practices and beliefs of Islam are harmful and unfair Many parts of the Islamic world regard apostasy as treason or a crime As a result emphasis in the book is shifted from crime to harm and a thesis is put forward concerning the decriminalization of apostasy from the perspective of zemiology The book highlights how a broader shift of interest in the democratic structures of Europe could allow ex Muslims to join the discussion on the guaranteed right to religious liberties and freedom of speech in the context of the apostasy law in Islam This should happen without fear for their own security and without facing potential suppression or social exclusion It will appeal to scholars with interest in Islam and the conflict between religious values and an individual s aspirations and needs
