emphasize the political nature of the policy planner's work and stress the role of persuasive arguments in practical decision making. Recognizing the rhetorical communicative character of policy and planning deliberations, they show that policy arguments are necessarily selective both shaping and being shaped by relations of power. These essays reveal the practices of policy analysts and planners in powerful new ways as matters of practical argumentation in complex, highly political environments. They also make an important contribution to contemporary debates over postempiricism in the social and policy sciences. Contributors: John S. Dryzek, William N. Dunn, Frank Fischer, John Forester, Maarten Hajer, Patsy Healey, Robert Hoppe, Bruce Jennings, Thomas J. Kaplan, Duncan MacRae Jr., Martin Rein, Donald Schon, J. A. Throgmorton. Novels, Novelists, and Readers Mary F. Rogers, 1991-07-03 Focusing on British and American novels, Rogers takes a sociological look at the business of literature, the book industry, and the experiences of novelists and readers. Viewing the novel as a vehicle of cultural meaning, the author shows how the literary canon overlooks substantial similarities among novels in favor of restrictive codes based on social as well as literary considerations. She emphasizes the kinship between the social sciences and humanities in her analysis by reinvigorating affection for the novel and also establishing its rich cultural significance.

On the Threshold of Knowing Lucia Rainer, 2017-04-15 In this in-depth analysis of artistic and academic lectures and performances, Lucia Rainer features an innovative conceptual and methodological tool that augments Goffman's Frame Analysis with a praxeological perspective. This way, she gives profound insight into how knowledge as a practice and a concept is associated with clarity rather than truth. Based on four case studies, including John Cage's unpublished and unabridged audio recording of *Lecture on Nothing*, the study explores how the concept of lecture performances, which adheres to two frames that never entirely blend, provides a space to renegotiate the artistic-academic relationship. *The Institutional Dynamics of Culture, Volumes I and II* Perri Six, 2018-12-20 These two volumes present the most important recent developments in the institutional theory of culture and demonstrate their practical applications. Sometimes called grid-group analysis or cultural theory, they derive from the work of Durkheim in the 1880s and 1900s and develop the insights of the anthropologist Mary Douglas and her followers from the 1960s on. First redefined within social and cultural anthropology, the theory's influence is shown in recent years to have permeated all the main disciplines of social science with substantial implications for politics, history, business, work, and organizations, the environment, technology, and risk, and crime and consumption. Today, the institutional theory of culture now rivals the rational-choice, Weberian, and postmodern outlooks in influence across the social sciences.

Microfoundations of Institutions Patrick Haack, Jost Sieweke, Lauri Wessel, 2019-11-25 The notion of microfoundations has received growing interest in neo-institutional theory along with an interest in microfoundational research in disciplines such as strategic management and economics. Maci, Massimiliano Demata, Mark McGlashan, Philip Seargeant, 2023-11-30 This handbook offers a comprehensive overview of research into discourses of disinformation.
