Although Americans have shown interest in Italian Baroque art since the eighteenth century Thomas Jefferson bought copies of works by Salvator Rosa and Guido Reni for his art gallery at Monticello and the seventeenth century Bolognese school was admired by painters Benjamin West and John Singleton Copley a widespread appetite for it only took hold in the early to mid twentieth century *Buying Baroque* tells this history through the personalities involved and the culture of collecting in the United States The distinguished contributors to this volume examine the dealers auction houses and commercial galleries that provided access to Baroque paintings as well as the collectors curators and museum directors who acquired and shaped American perceptions about these works including Charles Eliot Norton John W Ringling A Everett Austin Jr and Samuel H Kress These essays explore aesthetic trends and influences to show why Americans developed an increasingly sophisticated taste for Baroque art between the late eighteenth century and the 1920s and they trace the fervent peak of interest during the 1950s and 1960s A wide ranging in depth look at the collecting of seventeenth and eighteenth century Italian paintings in America this volume sheds new light on the cultural conditions that led collectors to value Baroque art and the significant effects of their efforts on America s greatest museums and galleries In addition to the editor contributors include Andrea Bayer Virginia Brilliant Andria Derstine Marco Grassi Ian Kennedy J Patrice Marandel Pablo Prez d Ors Richard E Spear and Eric M Zafran

Strobel,2023-11-30 The Art of Mary Linwood is the first book on Leicester textile artist Mary Linwood 1755 1845 and catalogue of her work When British textile artist and gallery owner Mary Linwood died in 1845 just shy of 90 years old her estate was worth the equivalent of 5 199 822 in today s currency As someone who made but did not sell embroidered replicas of famous artworks after artists such as Gainsborough Reynolds Stubbs and Morland how did she accumulate so much money A pioneering woman in the male dominated art world of late Georgian Britain Linwood established her own London gallery in 1798 that featured copies of well known paintings by these popular artists Featuring props and specially designed rooms for her replicas she ensured that her visitors had an entertaining educational and kinetic tour similar to what Madame Tussaud would do one generation later The gallery s focus on picturesque painters provided her London visitors with an idyllic imaginary journey through the countryside Its emphasis on quintessentially British artists provided a unifying focus for a country that had recently emerged from the threat of Napoleonic invasion This book brings to the fore Linwood s gallery guides and previously unpublished letters to her contemporaries such as Birmingham inventor Matthew Boulton and Queen Charlotte It also includes the first and only catalogue of Linwood s extant and destroyed works By examining Linwood s replicas and their accompanying objects through the lens of material culture the book provides a much needed contribution to the scholarship on women and cultural agency in the early 19th century      Forlì, Cesena and its province 2005 ,2006

**Poussin, Claude and Their World** École nationale supérieure des beaux-arts (France),Emmanuelle Brugerolles,David Guillet, Geneva (Switzerland). Musée d'art et d'histoire, Frick Collection,2002      **A History of Art History** Christopher S. Wood,2021-03-02 In this authoritative book the first of its kind in English Christopher Wood tracks the evolution of the historical study of art from the late middle ages through the rise of the modern scholarly discipline of art history Synthesizing and assessing a vast array of writings episodes and personalities this original and accessible account of the development of art historical thinking will appeal to readers both inside and outside the discipline The book shows that the pioneering chroniclers of the Italian Renaissance Lorenzo Ghiberti and Giorgio Vasari measured every epoch against fixed standards of quality Only in the Romantic era did art historians discover the virtues of medieval art anticipating the relativism of the later nineteenth century when art history learned to admire the art of all societies and to value every work as an index of its times The major art historians of the modern era however Jacob Burckhardt Aby Warburg Heinrich W Ifflin Erwin Panofsky Meyer Schapiro and Ernst Gombrich struggled to adapt their work to the rupture of artistic modernism leading to the current predicaments of the discipline Combining erudition with clarity this book makes a landmark contribution to the understanding of art history from book jacket      **Christian Rome** J. Campbell, Stephanie R. Miller, Elizabeth Carroll Consavari, 2016-03-23 Emphasizing on the one hand the reconstruction of the material culture of specific residences and on the other the way in which particular domestic objects reflect shape and mediate family values and relationships within the home this volume offers a distinct contribution to research on the early modern Italian domestic interior Though the essays mainly take an art historical approach the book is interdisciplinary in that it considers the social implications of domestic objects for family members of different genders age and rank as well as for visitors to the home By adopting a broad chronological framework that encompasses both Renaissance and Baroque Italy and by expanding the regional scope beyond Florence and Venice to include domestic interiors from less studied centers such as Urbino Ferrara and Bologna this collection offers genuinely new perspectives on the home in early modern Italy Seventeenth-century Art & Architecture Ann Sutherland Harris, 2005 Encompassing the socio political cultural background of the period this title takes a look at the careers of the Old Masters and many lesser known artists The book covers artistic developments across six countries and examines in detail many of the artworks on display *Knowledge and Colonialism* Siegfried Huigen, 2009-07-15 The establishment of a settlement at the Cape of Good Hope in the seventeenth century and an expansion of the sphere of colonial influence in the eighteenth century made South Africa the only part of sub Saharan Africa where Europeans could travel with relative ease deep into the interior As a result individuals with scientific interests in Africa came to the Cape This book examines writings and drawings of scientifically educated travellers particularly in the field of ethnography against the background of commercial and administrative discourses on the Cape It is argued that the scientific travellers benefited more from their relationship with the colonial order than the other way around
