4. The left side should contain **meaningful** quotations from the text.
5. Use quotation marks and document correctly (according to MLA citation).
6. Indicate the speaker of direct quotations.
7. The right side should include your response to the quotation – in responding you should make comments, ask questions, record observations, draw inferences, connect to other readings, etc.
8. Number all entries consecutively.

10. Make sure that entries and responses parallel each other.

3. The protagonist of the novel chooses to pursue knowledge in order to bring glory to himself. Identify what Shelley has to say about this pursuit, either through her narration or what specific characters say.

Dialectics and the Sublime in Underhill's Mysticism Peter Chong-Beng Gan, 2015-04-29 This book represents a study of Evelyn Underhill's premier work on mysticism using Hegel's dialectics and Kant's theory of the sublime as interpretive tools. It especially focuses on two prominent features of Underhill's text: the description of the mystical life as one permeated by an intense love between the mystic and infinite reality and the detailed delineation of stages of mystical development. Given these two features, the text lends itself to a construction of a valuable discourse predicated on dialecticism, sublimity, and mysticism. The book also articulates a number of insights into the content and nature of the writings of Christian mystics.

Romanticism and the Human Sciences Maureen N. McLane, 2000-09-14 This study, published in 2000, examines the dialogue between Romantic poetry and the human sciences of the period. Maureen McLane reveals how Romantic writers participated in a new-found consciousness of human beings as a species by analysing their work in relation to discourses on moral philosophy, political economy, and anthropology. Writers such as Wordsworth, Coleridge, Mary Shelley, and Percy Shelley explored the possibilities and limits of human being, language, and hope. They engaged with the work of theorists of the human sciences, Malthus, Godwin, and Burke among them. The book offers original readings of canonical works including *Lyrical Ballads*, *Frankenstein*, and *Prometheus Unbound* to show how the Romantics internalised and transformed ideas about the imagination, perfectibility, immortality, and population, which so energised contemporary moral and political debates. McLane provides a defence of poetry in both Romantic and contemporary theoretical terms, reformulating the predicament of Romanticism in general and poetry in particular.

John Donne in the Nineteenth Century Dayton Haskin, 2007-06-21 In 1906, having been assigned Izaak Walton's *Life of Donne* to read for his English class, a Harvard freshman heard a lecture on the long-disparaged metaphysical poets. Years later, when an appreciation of these poets was considered a consummate mark of a modernist sensibility, T. S. Eliot was routinely credited with having discovered Donne himself. *John Donne in the Nineteenth Century* tracks the myriad ways in which Donne was lodged in literary culture in the Romantic and Victorian periods. The early chapters document a first revival of interest when Walton's *Life* was said to be in the hands of every reader; they explore what Wordsworth and Coleridge contributed to the conditions for the 1839 publication of the only edition ever called *The Works*, which reprinted the sermons of Dr. Donne. Later chapters trace a second revival when admirers of the biography turned to the prose letters and the poems to supplement Walton; they discovered that his hero's writings entail the sorts of controversial issues that are raised by Browning, by the fleshly school of poets, and by self-consciously decadent writers of the fin de siècle. The final chapters treat the spread of the academic study of Donne from Harvard, where already in the 1880s he was the anchor of the seventeenth-century course, to other institutions and beyond the academy, showing that Donne's status as a writer eclipsed his importance as the subject of Walton's narrative, which Leslie Stephen facetiously called the masterpiece of English biography.
